SPECIAL BACK PAPER

Ref.

No: BOCT804D/EXAM/2022-23

To,

Dr. Sandeep Kumar, Assistant Professor in Deptt. of Computer Science & Engg., Tulaa's Institute Dehradun

Dear Sir,

I have the pleasure to inform you that the competent authority of the Veer Madho Singh Bhandari Uttarakhand Technical University (VMSBUTU), Dehradun (Formerly Uttarakhand Technical University) has appointed you as the question paper setter for odd semester examinations for the subjects mentioned below. As per the policy of VMSBUTU, the question paper setter has to prepare one set of assigned question papers in the format prescribed by the university in typed form using the fonts used therein. Also, the question paper setter has to provide the model solution with steps of making i.e. marking scheme.
The remuneration for one complete set of question paper in digital form with the model solution is Rs. 2000/- (Two Thousand Rupees Only).

S.No.	COURSE	BRANCH	SEMESTER	SUBJECT CODE	SUBJECT NAME	DURATION	MAX MARKS
1.	B.Tech.	Electrical Engineering	VIII	BOCT804D)	Cloud Computing	3 hours	100

The General Guidelines for question paper setters are,

- The question paper is to be made in the prescribed format **in MS Word** using the template provided along with this offer letter.
- The questions should not be out of the syllabus in any case and the language of questions must be free from ambiguity and any error.
- The questions should not be asked verbatim from the sample question paper provided with this offer letter.
- The figures/pictures may be scanned and pasted as images in the respective questions with each image size not being more than 50 kB.
- There should not be any repetition of questions in the paper.
- Marks allotted to each question must be as indicated in the question paper format.
- The additional material to be supplied during the examination of the respective question paper such as Tables/Standards/Charts etc. must be categorically mentioned in the NOTE on the top of the question paper.
- The Question paper is to be sent in soft copy (in MS Word) through email at utucoe@gmail.com only.
- The Complete process of setting up question paper has to be kept highly confidential so it is your obligation to maintain complete confidentiality of the assigned work and destroy the stationery used for question paper setting and digital form of a paper at your end including the trail of sending email after confirmation of receipt of the paper by Controller of Examination, VMSBUTU.

Director
Tula's Institute, Dehradun

- The following documents are to be sent by Speed Post of the Controller of Examination. Veer Madho Singh Bhandari Uttarakhand Technical University, Chakrata Road, P.O. Chandanwari, Premnagar, Suddhowala, Dehradun, Uttarakhand (India) 248 007.

1. Remuneration Bill
2. Undertaking in original
3. Copy of this offer letter
4. Self-attested copy of Pan Card
5. Self-attested copy of Bank Passbook or canceled cheque with IFSC code.

Please submit the question paper along with the model solution in soft copy (in MS Word) **at the email address utucoe@gmail.com as earliest as possible** by Feb 15, 2023 **of receipt of this offer letter.**

Looking forward to your timely cooperation in maintaining the highest standard and confidentiality of the examinations of VMSBUTU.

Sincerely Yours
Dr. V. K. Patel

Ref. No:

BCST505F/EXAM/2022-23

To,

Dr. Sandeep Kumar, Assistant Professor in Deptt. of CSE, Tula's Institute Dehradun

Dear Sir,

I have the pleasure to inform you that the competent authority of the Veer Madho Singh Bhandari Uttarakhand Technical University (VMSBUTU), Dehradun (Formerly Uttarakhand Technical University) has appointed you as the question paper setter for odd semester examinations for the subjects mentioned below. As per the policy of VMSBUTU, the question paper setter has to prepare one set of assigned question papers in the format prescribed by the university in typed form using the fonts used therein. Also, the question paper setter has to provide the model solution with steps of making i.e. marking scheme.

The remuneration for one complete set of question paper in digital form with the model solution is Rs. 2000/- (Two Thousand Rupees Only).

S.No.	COURSE	BRANCH	SEMESTER	SUBJECT CODE	SUBJECT NAME	DURATION	MAX MARKS
1.	B.Tech.	CSE	V	BCST505F	Artificial Intelligence	3 hours	100

The General Guidelines for question paper setters are,

- The question paper is to be made in the prescribed format **in MS Word** using the template provided along with this offer letter.
- The questions should not be out of the syllabus in any case and the language of questions must be free from ambiguity and any error.
- The questions should not be asked verbatim from the sample question paper provided with this offer letter.
- The figures/pictures may be scanned and pasted as images in the respective questions with each image size not being more than 50 kB.
- There should not be any repetition of questions in the paper.
- Marks allotted to each question must be as indicated in the question paper format.
- The additional material to be supplied during the examination of the respective question paper such as Tables/Standards/Charts etc. must be categorically mentioned in the NOTE on the top of the question paper.
- The Question paper is to be sent in soft copy (in MS Word) through email at utucoe@gmail.com only.
- The Complete process of setting up question paper has to be kept highly confidential so it is your obligation to maintain complete confidentiality of the assigned work and destroy the stationery used for question paper setting and digital form of a paper at your end including the trail of sending email after confirmation of receipt of the paper by Controller of Examination, VMSBUTU.

MS. AKANKSHA SRIVASTAV, **Assistant Professor in Tula's Institute**

Dear Madam,

I have the pleasure to inform you that the competent authority of the Veer Madho Singh Bhandari Uttarakhand Technical University (VMSBUTU), Dehradun (Formerly Uttarakhand Technical University) has appointed you as the question paper setter for Even semester examinations for the subjects mentioned below. As per the policy of VMSBUTU, the question paper setter has to prepare one set of assigned question papers in the format prescribed by the university in typed form using the fonts used therein. Also, the question paper setter has to provide the model solution with steps of making i.e. marking scheme.

The remuneration for one complete set of question paper in digital form with the model solution is Rs. 2000/- (Two Thousand Rupees Only) and without the model solution is Rs 1500 (One Thousand Five Hundred Only).

S.No.	COURSE	BRANCH	SEMESTER	SUBJECT CODE	SUBJECT NAME	DURATION	MAX MARKS
1.	MCA	MCA	IV	MCAT431	Neural Network	3 hours	100

The General Guidelines for question paper setters are,

- The question paper is to be made in the prescribed format in **MS Word** using the template provided along with this offer letter.
- The questions should not be out of the syllabus in any case and the language of questions must be free from ambiguity and any error.
- The questions should not be asked verbatim from the sample question paper provided with this offer letter.
- The figures/pictures may be scanned and pasted as images in the respective questions with each image size not being more than 50 kB.
- There should not be any repetition of questions in the paper.
- Marks allotted to each question must be as indicated in the question paper format.
- The additional material to be supplied during the examination of the respective question paper such as Tables/Standards/Charts etc. must be categorically mentioned in the NOTE on the top of the question paper.
- The Question paper is to be sent in soft copy (in MS Word) through email at utucoe@gmail.com only.
- The Complete process of setting up question paper has to be kept highly confidential so it is your obligation to maintain complete confidentiality of the assigned work and destroy the stationery used for question paper setting and digital form of a paper at your end including the trail of sending email after confirmation of receipt of the paper by Controller of Examination, VMSBUTU.

Director
Tula's Institute, Dehradun

- The following documents are to be sent by Speed Post of the Controller of Examination. Veer Madho Singh Bhandari Uttarakhand Technical University, Chakrata Road, P.O. Chandanwari, Premnagar, Suddhowala, Dehradun, Uttarakhand (India) 248 007.

1. Remuneration Bill
2. Undertaking in original
3. Copy of this offer letter
4. Self-attested copy of Pan Card
5. Self-attested copy of Bank Passbook or canceled cheque with IFSC code.

Please submit the question paper along with the model solution in soft copy (in MS Word) at the email address utucoe@gmail.com as earliest as possible within 3 days of receipt of this offer letter.

Looking forward to your timely cooperation in maintaining the highest standard and confidentiality of the examinations of VMSBUTU.

Sincerely Yours
Dr V K Patel

Date: 17/04/2023

Notice

It is to inform to all the students of ECE/EEE department that scheduled add-on course on Electric Vehicles (EV) has been scheduled from April 24 to April 28, 2023, at the Computer Lab V. The course will be held from 9:30 am to 4:30 pm each day. This course is a great opportunity for you to learn about the emerging field of electric vehicles and gain valuable knowledge and skills in this area.

The course will cover various topics related to electric vehicles, including their design, technology, components, charging infrastructure, environmental impact, and future prospects. It will also include practical sessions and hands-on activities in the computer lab, where you will have the opportunity to work with electric vehicle simulation software, analyze data, and understand the principles of EV operation.

Kindly note attendance is mandatory during the course

5Days Short Term Course on

"Simulation & Design of Electric Vehicles Using MATLAB"

Organized by

Tula's Institute, Dehradun

TULAS DEHRADUN Est. 2006

in

Electrical & Electronics and Electronics & Communication Engineering Department

Date:-

24th to 28th April 2023

www.tulas.edu.in

About Tula's Institute

Tula's Institute accredited with NAAC A+ institute was started in 2006, under the aegis of Rishabh Educational Trust. Nestled in the capital city of Uttarakhand, the institute has a sprawling green campus overlooking the majestic Himalayas.

Over the years, Tula's has provided with the highest quality technical education to students from all over India. The institute is recognised for its excellence in undergraduate and postgraduate academic programs including Engineering, Business, Mass Communication, Agriculture and Computer Applications.

With a 100% placement record in reputed firms, Tula's is a pioneer in providing top-notch education along with the right practical exposure.

We at Tula's, believe in making a balance between education and extra-curricular activities while maintaining a healthy teacher-student ratio and creating equal opportunities for all. Student gets an opportunity to step up and nurture their talent. Annual Cultural and Technical fests Sanskriti, and Utkrisht, are the biggest inter-college events organised by the college.

Vision

To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission

To promote intellectual and skilled human capital generation employment and entrepreneurship.

Be educational centre of excellence of multi ethnicity and diversity.

Establish as technology driven teaching learning institution.

Provide world class platform for research and innovation.

Inculcate social, environmental, heritage values.

About Department

The vision of ECE& EEE department is to become pioneer in higher learning and research and to produce creative solution to societal needs.To provide excellence in education, research and public service.To provide quality education and to make the students entrepreneur and employable.

Vision

To produce quality Engineers in the field of Electrical and Electronics Engineering by providing core technical skills.

Mission

Focus on the current technology on non-conventional energy and green energy.

Graduates have state of art engineering knowledge necessary for employment in industries as well as higher studies and research.

Collaborate with industry, research organizations and academia to encourage creativity and innovation.

About Tula's Institute

Tula's Institute, founded by Rishabh Educational Trust in 2006, is acknowledged as the NAAC A+ Accredited institute as having the highest rating amongst colleges & universities in Uttrakahnad. Tula's Institute is one of the 'Top Engineering Colleges in Uttarakhand' for its excellence in academic programs from undergraduate to the postgraduate level.

Tula's Institute is Ranked as No. 1 College in the Dehradun for placements in core companies, faculty, and infrastructure and Industry exposure.

Tula's Institute Dehradun is dedicated to serving our communities by recognizing the diverse needs of the individuals. It encourages personal and professional development through respect, appreciation and a commitment to general education, as a foundation for life-long learning.

Vision

To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission

To promote intellectual and skilled human capital generation employment and entrepreneurship.

To be educational centre of excellence of multi ethnicity and diversity.

To establish as technology driven teaching learning institution.

To provide world class platform for research and innovation.

To inculcate social, environmental, heritage values.

About Department of Computer science & Engineering

Bachelor of Technology in Computer Science & Engineering (B.Tech. CSE) is one of the most sought-after engineering degrees. The program teaches students about computer applications and systems in order to prepare them for a career in the IT industry. In this program, students learn about programming languages, digital and analogue electronic equipment, networking, Design and development of computer software and hardware and various forms of communication engineering. Students who have analytical and logical reasoning skills, as well as an interest in software development, testing, and programming, should consider a career in this field

Vision

To become the centre of excellence in teaching, research and innovative practices for computing.

Mission

To provide a learning ambience to enhance programming skills for problem solving

To integrate the software industry and academia in order to utilise technology for research, innovation and entrepreneurship

HoD
Department of Computer Sciences & Engineering

To develop professionals with a solid foundation who can think outside the box to adapt green computing solution.

To provide a comprehensive computing environment that meets the highest global standards for higher education and lifelong learning.

To create ethical, skilled engineers through theoretical understanding and practical implementations

About Brillica Services

Brillica Services Private Limited is a trusted training provider and leading provider at high quality, innovative and industry relevant IT skills, empowering and budding IT aspirants with across-the-board knowledge with a vision to create a fleet of the smarter workforce for global organizations. With a team of dedicated and knowledgeable learning professionals having profound subject-matter expertise, we provide blended IT training solutions to map all your IT learning needs.

Objective

The main objective of the workshop was to impart knowledge among the students. On the first day of the workshop the students of Tula's Institute showed active participation and the same continued till the last day. Mr. Raghvendra helped students gain technical knowledge of Front-End development. The students got to know about how to use Html, CSS java script and its various libraries which come handy for today's competitive environment.

About Tula's Institute

Tula's Institute, founded by Rishabh Educational Trust in 2006, is acknowledged as the NAAC A+ Accredited institute as having the highest rating amongst colleges & universities in Uttrakahnad. Tula's Institute is one of the 'Top Engineering Colleges in Uttarakhand' for its excellence in academic programs from undergraduate to the postgraduate level.

Tula's Institute is Ranked as No. 1 College in the Dehradun for placements in core companies, faculty, and infrastructure and Industry exposure.

Tula's Institute Dehradun is dedicated to serving our communities by recognizing the diverse needs of the individuals. It encourages personal and professional development through respect, appreciation and a commitment to general education, as a foundation for life-long learning.

Vision

To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission

To promote intellectual and skilled human capital generation employment and entrepreneurship.

To be educational centre of excellence of multi ethnicity and diversity.

To establish as technology driven teaching learning institution.

To provide world class platform for research and innovation.

To inculcate social, environmental, heritage values.

About Department of Computer science & Engineering

Bachelor of Technology in Computer Science & Engineering (B.Tech. CSE) is one of the most sought-after engineering degrees. The program teaches students about computer applications and systems in order to prepare them for a career in the IT industry. In this program, students learn about programming languages, digital and analogue electronic equipment, networking, Design and development of computer software and hardware and various forms of communication engineering. Students who have analytical and logical reasoning skills, as well as an interest in software development, testing, and programming, should consider a career in this field

Vision

To become the centre of excellence in teaching, research and innovative practices for computing.

Mission

To provide a learning ambience to enhance programming skills for problem solving

To integrate the software industry and academia in order to utilise technology for research, innovation and entrepreneurship

To develop professionals with a solid foundation who can think outside the box to adapt green computing solution.

HoD
Department of Computer Sciences & Engineering
Tula's Institute, Dehradun

To provide a comprehensive computing environment that meets the highest global standards for higher education and lifelong learning.

To create ethical, skilled engineers through theoretical understanding and practical implementations

About Brillica Services

Brillica Services Private Limited is a trusted training provider and leading provider at high quality, innovative and industry relevant IT skills, empowering and budding IT aspirants with across-the-board knowledge with a vision to create a fleet of the smarter workforce for global organizations. With a team of dedicated and knowledgeable learning professionals having profound subject-matter expertise, we provide blended IT training solutions to map all your IT learning needs.

Objective

The main objective of the workshop was to impart knowledge among the students. On the first day of the workshop the students of Tula's Institute showed active participation and the same continued till the last day. Mr.Vikas Singh helped students gain technical knowledge of Machine Learning. The students got to know about how to use python tool and its various libraries which come handy for today's competitive environment.

About Department (Mechanical Engg.)

The Mechanical Engineering Department of Tula's Institute is one of the oldest department since its inception in 2006. The department offers Diploma, Undergraduate, and Postgraduate programs in mechanical engineering. The main goal of the curriculum is to impart quality education to the students to develop technical skills, improve their problem-solving abilities, and encourage them to become a competitive mechanical engineer. The Department offers two specializations in the field of Robotics and Energy Engineering. Mechanical engineering may be the programme of study for you if you are seeking career in the field of design, development, quality, manufacturing, installation and operation.

Vision

To develop the department as an innovation centre & centre of excellence to produce engineers with knowledge, skills and character.

EVENT SUMMARY

Department of Civil Engineering

5 Days Add-On certification course on Sketch up

Date- 26/06/2023/DCE/Tula's Institute

Objectives:

1- To demonstrate proper use of the Google sketch up software in civil and architecture field.

2- To create various building components such as walls, slabs, columns, Doors & Windows.

3- To make students skillful in Google sketch up and to make them industry ready.

Summary: The immersive and enlightening 5-day Add-on Certification Course on Google Sketch Up, which took place from June 20th to June 21st, 2023, marked a significant milestone in the participant's journey towards mastering the art of civil, architectural and interior design. This event, meticulously designed to enrich student's skill sets and elevate their creative prowess, was inaugurated with great aplomb on its opening day by none other than the esteemed Dean of Academics and the venerable Department Head. The students from B.Tech civil engineering branch of all 4 years participated in this course.

Google Sketch Up, the focal point of this enriching course, proved to be a versatile and indispensable tool in the realm of design. Its capabilities transcend traditional design methods, allowing creators to visualize and bring to life intricate concepts in both 2D and 3D dimensions. The course, guided by industry experts and seasoned instructors, offered participants an in-depth exploration of this dynamic software, enabling them to delve into the nuances of architectural modeling, space planning, and component detailing.

The curriculum was thoughtfully curated to provide a comprehensive learning experience. Students embarked on a journey that encompassed various facets of design, from conceptualizing and sketching initial ideas to translating them into intricate digital models. Through a series of hands-on exercises and engaging tutorials, attendees honed their skills in navigating the software's interface, creating precise measurements, and adding intricate details that breathe life into their designs.

One of the course's highlights was the emphasis on house planning, both in 2D and 3D formats. Students delved into the intricacies of designing spaces that are not only aesthetically pleasing but also functional and optimized for human habitation. They learned to transform a blank canvas into a virtual realm where walls, windows, doors, and furniture seamlessly coexist to create harmonious living spaces.

Furthermore, participants had the opportunity to explore the diverse array of building components that

Google Sketch Up offers. From designing stunning facades that evoke architectural splendor to crafting minute details such as staircases, railings, and structural elements, the course exposed students to a rich palette of design possibilities. This comprehensive understanding of various building components empowered the participants to create holistic and visually appealing designs that encompassed every aspect of architectural composition.

The course wasn't solely focused on individual endeavors; it also fostered a collaborative environment. Participants engaged in interactive group activities, where they shared ideas, critiqued each other's work, and collectively tackled design challenges. This collaborative spirit enriched their learning experience and provided a glimpse into the dynamic and collaborative nature of the design industry.

As the event culminated on the 5th day, a sense of accomplishment and pride filled the air as participants were awarded certificates of completion. These certificates symbolized not only the successful culmination of the course but also the participants' dedication, hard work, and newfound expertise in Google Sketch Up. Armed with this valuable knowledge, participants were well-equipped to embark on their professional journeys, equipped with the tools to bring their creative visions to life.

In retrospect, the 5-day Add-on Certification Course on Google Sketch Up transcended conventional learning, becoming a transformative experience that widened student's horizons and kindled their imaginative potential. By harnessing the power of Google Sketch Up, attendees emerged as confident and proficient designers, capable of shaping and enhancing the world around them through innovative and visually captivating designs. This course was a testament to the enduring impact of hands-on learning and the boundless possibilities that emerge when creativity intersects with technology.

Outcomes: Students achieved following outcomes from the 5 Days course:

1. Proficient Google Sketch Up Usage
2. Enhanced 2D and 3D Design Skills
3. Comprehensive House Planning Expertise
4. Component Detailing Mastery
5. Effective Architectural Visualization
6. Collaborative Design Aptitude
7. Certificate of Completion
8. Improved Professional Preparedness
9. Increased Creative Confidence
10. Valuable Networking Opportunities

About Tula's Institute

Tula's Institute, founded by Rishabh Educational Trust in 2006, is acknowledged as the NAAC A+ Accredited institute as having the highest rating amongst colleges & universities in Uttrakahnad. Tula's Institute is one of the 'Top Engineering Colleges in Uttarakhand' for its excellence in academic programs from undergraduate to the postgraduate level.

Tula's Institute is ranked as No. 1 College in the Dehradun for placements in core companies, faculty, and infrastructure and Industry exposure.

Tula's Institute Dehradun is dedicated to serving our communities by recognizing the diverse needs of the individuals. It encourages personal and professional development through respect, appreciation and a commitment to general education, as a foundation for life-long learning.

Vision

To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission

To promote intellectual and skilled human capital generation employment and entrepreneurship.

Be educational centre of excellence of multi ethnicity and diversity.

Establish as technology driven teaching learning institution.

Provide world class platform for research and innovation.

Inculcate social, environmental, heritage values.

About Department

Vision

To evolve as globally renowned education centre promoting technology and entrepreneurship in the field of agriculture.

Mission

To promote agribusiness among the graduates and farmers.

To promote innovation in the field of agro forestry.

To enhance the integrity, sustainability and health of the forest and related biotic communities.

To create awareness for social, historical, ethical, cultural and human values.

To provide relevant education to the students in agriculture, processing and allied sciences.

Objective

The objective of this course is to teach students about the agribusiness, agriculture innovations, set of skill enhancement in the field of agriculture through hands on training and learning by doing.

Content

1. Agripreneurship development program

The overall objectives of Agripreneurship development program are mainly to help in the rapid growth of the economy by supplying skilled agri-entrepreneurs in the society. This programme primarily aims at providing self-employment to the young generation. Stimulatory Role: It aims at influencing people in large number to be the entrepreneur.

2. Food Processing & Preservation

The primary objective of food preservation is to provide general knowledge and experience in the field of food processing. It includes management and processing of value addition of agricultural and horticultural produce.

3. Organic Production & Composting Technology

Introduction/ Scope of Organic Farming and Vermicomposting

4. Concept of Organic farming, certification procedure of organic farm, organic standards, procedure of inspection and certification, Concept of Marketing and Indian Organic Market, Economics of Organic Farming and Government Schemes to support Organic Farming. Chemical fertilizer vs. organic fertilizer

Concept of Organic Farming techniques, vermicomposting methods and management in farm. Vermiculture, types of earth worm. Introduction to Bio pesticides and biofertilizers. Concept of Biodynamic composts making.
