1. About Jio

Reliance Jio Infocomm Limited ("Jio"), a subsidiary of Reliance Industries Limited ("RIL"), has built world's largest all-IP data strong future proof network with latest LTE technology. It is the most advanced network to provide high speed and ubiquitous data service. It has built a future ready network which can easily deploy 5G and beyond technology. Jio has created full eco-system comprising network, devices, applications and content, service experience and affordable tariffs for everyone to live the Jio Digital Life.

Jio is grateful to Rishabh Educational Trust for showing interest in Jio Digital services. We are delighted to welcome you into the world of Digital life

Incredible Journey of Jio

Jio launched its 4G services in September 2016 and since then it is breaking one world record after another.

- In less than **170 days**, more than **100 million customers** signed up for Jio's services. This was the fastest adoption of any technology service, anywhere in the world.
- Jio redefined technology service adoption and became the fastest growing company in the world, with **more than 160 million customers**.
- Jio enabled its users to make Unlimited Voice Calls from anywhere to everywhere in India – Absolutely Free.
- Jio revolutionized data consumption and made India the number 1 data-consuming nation.
- Jio users consistently make more than **250 crore minutes of voice and video calls every single day**.
- Jio reinvented the conventional feature phone and launched a breakthrough device called the Jio Phone that will unleash a Digital Life for every Indian.
- Jio's rapidly expanding **4G network coverage will be more than the combined 2G coverage** provided by all other telecom service providers **in next 12 months** in the country.

Tula's Institute, Dehradun

2. Network Overview

Key highlights of Jio's network

a) World's largest mobile data consumption network and first Exabyte network in the world.

b) 2X 4G base stations than all Indian operators combined.

c) Only network to deploy pan-India 4G across the 800MHz/ 1800MHz/ 2300MHz bands.

d) More data consumption than US and Chinese mobile companies.

e) Largest caching and CDN network in India.

f) Widest 4G reach in the industry; substantially greater than any operator; 80%+ of the overall industry data capacity and commensurate voice capacity.

g) Network presence in all 29 states of India, with direct physical presence in 29,000 cities and over 2 Lakh Villages.

h) More than 2.5 lakh kilometres of fiber-optic cables, covering 18,000 cities and over one lakh villages.

i) Strong service network with 1057 Jio Centres and over 1 million retailers PAN India.

j) Built nearly half-a-million square feet of cloud data centres and a multi-Terabit capacity international network.

3. Service Philosophy

We are committed to provide enhanced customer experience to our customers...always! Our dedicated Unified Fulfilment Centre is available round the clock to address your service requirements.

With Jio you get:

a) **Network Assurance-** Assured Network and proactive diagnostics on a button click

b) **Proactive Service-** Proactive monitoring of quality standards critical to you and their informed maintenance

c) **Simple Billing-** Fixed monthly service cost, requiring no reconciliation

d) **Self Help-** A world class self-care App for you to self-manage your account, completely

e) **Enterprise Fulfilment Centre-** A state of the art, Enterprise service centre with voice and e-mail support

4. Jio Differentiators

4.1. Network Coverage

a) Only 4G mobility network, no legacy network.

b) Deep coverage across India. Present in 29 states, 29000 cities, 580 POPs so far

4.2. Highly scalable network

a) Jio network based on optical fiber cables, enables delivery of highly scalable bandwidth - up to multiples of Gbps.

b) Jio design includes fiber cable into your IT room unlike a common fiber for full building. While upgrading, Enterprises need not worry about upgrade etc.

c) Jio uses multiple access technologies like FTTh, FTTe, UBR, LTE etc. enabling it to deploy the most optimal technology including an option for installing service on one and migrating to other for quick delivery.

4.3. Network engineered for Enterprises - Highly resilient

a) Meshed Core. No single point of failure dedicated dual fiber & multi homed architecture.

b) Access Network - locations connected on dual diverse paths on fiber (no copper) to ensure high availability.

c) Jio's network is all IP network, complete ownership of all access technology & no 3rd party dependency (off-net).

4.4. Digital Convenience

a) Access self-care portal from Order creation stage to track progress of links' /services' delivery – no shocks on delays in delivery.

b) View and pay bills online.

c) View performance of service, Ability to raise and track service requests online.

4.5. Simple & efficient Billing

a) Simple charging methodology.

b) Easy to read bills available at portal.

Director
Tula's Institute, Dehradun

4.6. Enterprise care

a) Next level service care, with one integrated team responsible for end to end service experience. Single owner for any incident.

5. Proposed Solution

To enable **Rishabh Educational Trust** the digital connectivity demand, Jio is proposing the service with below specification:
