

## MEMORANDUM OF UNDERSTANDING

This MOU is made at Dehradun on date mentioned under signatures between EV Cityride and Tula's Institute referred to as "Participant".

EV Cityride is making efforts to carve much-needed space for the world of electric vehicles ("EV") in the transportation commerce that's currently dominated by fuel powered vehicles. EV Cityride is creating end to end solution for EV, from developing and maintaining electrical infrastructure to managing entire fleet, to make the transition seamless as well hassle free for the persons willing to be part of this change and be frontrunner of making environment greener and cleaner.

EV Cityride and Tula's Institute have decided to work together as a Community Partner for this cause towards Cleaner and Greener Uttarakhand.

## THE PLEDGE

As such, I hereby sign the Pledge in support of EV Cityride' mission to reduce air pollution, to educate the public on the health risks associated with poor air quality and to encourage community people to commit to cleaner air, lower emissions, and more sustainable future. Tula's Institute also pledges to start using & promoting EV cars as and when possible, to reduce carbon footprints.

The Memorandum of Understanding will be effective 18<sup>th</sup> Oct 2021
