Discussion on the following points presented by the Ph. D Coordinator of the University:

1. Original Ph. D degree need to be awarded to the registered scholars till year 2016 that had been provided with the Provisional Ph. D Degrees before. Since few years the convocation could not be held due to which it is proposed to award the research scholars with their original Ph. D Degree. Therefore, discussion and approval is needed for afore said.
2. There are some irregularities been found in the various research courses of Ph. D due to which the decisions have been taken by the constituting committee by the competent authority. Therefore, discussions and decisions are needed for all such Ph. D research scholars.
3. Appeal regarding a qualified supervisor in the Ph. D course of the University. The list of the qualified teachers was called by the university from all the institutions for the above, in which the Bio-data of the qualified supervisors was made available by the Institutes. After that, the list was prepared after scrutiny by the Ph. D section. So, for Ph. D students, discussion and approval to issue a qualified Supervisor.
4. According to **ADF Scheme of All India Council for Technical education (AICTE)**, the scrutiny and selection of the applications received in relation to the advertisement published by the University, discussion and approval is needed.
5. Scholars registered up to the years 2016, who have submitted all the documents of research coursework, discussion and approval is needed to release their mark sheets of coursework to them.

Director
Tula's Institute, Dehradun

- Proposal:** The detailed details of the relevant points will be presents in the meeting by the Ph. D Coordinator, action will be taken accordingly.
- Decision:**
- 1) Provisional Ph. D Degrees have been awarded to the research scholars registered till the year 2016 as per the rules, all of them have to be awarded the original degree, for this the detailed data of the concerned students will be made available to the examination section for getting the degree printed, Approval was accorded with consent.
 - 2) The case of Ph. D. students Abhishek Gupta, Shorabh and Sunil Kumar was presented before the members of the Academic Council, Honourable Vice-Chancellor, for monitoring the related cases.
 - 3) On not submitting a detailed proposal by the Ph. D. coordinator, a recommendation was given to keep the matter in the next Academic Council.
 - 4) It has been decided by the respected members of the Academic Council that there no need to keep the related proposal in the Academic Council.
 - 5) Approval was granted to make the data of the concerned students available from the Ph. D. section to the Examination section as per the rules and accordingly the Controller of Examinations to take necessary action as per the rules.

Point no.: 10-08

About Department

Vision

To be a centre of excellence in Electronics and Communication Engineering

Mission

To provide an environment in which both faculty and students can think critically and incorporate knowledge.

Provide state of art technical skills to students to make them global competent technology professionals.

Collaborate with industry, research organizations and institute of national importance to encourage creativity and innovation.

Preparing graduates having core engineering knowledge as well as modern skill set.

Preparing graduate research oriented with positive attitude and ethical values.

Objective

The main objective of this course is to understand fundamental of IOT and embedded system including essence, basic design strategy and process modelling. To introduce a set of advanced topics in embedded IOT and to understand research in networks. This course also provides fundamentals of security in IOT. To implement secure infrastructure for IOT.

Students will be exposed to the interconnection and integration of the physical world and the cyber space. This course provides to design and develop IOT devices.

Content

The internet of things (IOT) is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers (UDIs) and the ability to transfer data over a network without requiring human to computer interactions.

- Introduction To embedded system
- Introduction To IOT
- Need of automation
- Advancement Techniques
- LED interfacing
- Motor interfacing
- Sensor interfacing
- Hands on training at IOT platform using NODEMCU, Think speak Server

Outcome:-

- Implement an architectural design of IOT for specific applications.
- Understand the application areas of IOT.
- Realize the revolution of internet in mobile devices, cloud and sensor networks.
- Understand building blocks of internet of things and characteristics.

About Department

Graduate School of Business is the department of management where we provide three courses MBA, BBA and B.com Hons. Through a rigorous and well-planned curriculum, we aim to push students to go beyond their comfort zone and achieve excellence in business. Our main objective is to nurture our students and to make them industry-ready with strong foundations of business management. We are developing priceless managerial skills in students so that in future they can lead the organization in a better way or start their own venture.

Vision

To evolve successful business leaders and entrepreneurs with social responsibility and global outreach.

Mission

To prepare the students for dynamic business environment through quality educational programs.

To contribute to human capital requirement in society and industry by augmenting the employability of students.

To cultivate the symbiotic relation with industry and other organizations for all round development of the students.

To sensitize the students towards value based and socially responsible behaviour as a business leader and entrepreneur.

About E&ICT

Electronics & ICT Academy (E & ICT Academy) at IIT Kanpur has been mandated to provide industry focused and industry-driven, hands-on courses in Electronics & ICT. It strives to narrow the gap between the academic approach to Electronics & ICT domains as currently provided by the educational institutions and the practically oriented approach as demanded by the industry. It is working towards enhancing the domain expertise of interested faculties with a special focus on the faculties of the three northern states of U.P., Haryana, Punjab and the two union territories of Delhi and Chandigarh, through a continuous engagement model with courses upgraded regularly.

About Department

A bachelor's degree in agriculture is a broad-based program with a lot of promise. It covers topics such as food production, gardening, animal husbandry, rural economy and development, environmental health and so on. Other businesses may face layoffs, but agriculture will never be one of them because "food" is a basic human need. There will never be a recession or a slowdown when it comes to feeding the planet. Truly speaking, advances in technology, research, and inventions in this field have greatly expanded the scope of agriculture.

Vision

To evolve as globally renowned education centre promoting technology and entrepreneurship in the field of agriculture and forestry.

Mission

- To promote agribusiness among the graduates and farmers.
- To promote innovation in the field of agroforestry.

- To enhance the integrity, sustainability and health of the forests and related biotic communities.
- To create awareness for social, historical, ethical, cultural and human values.
- To provide relevant education to the students in Agriculture, Processing and Allied Sciences.

About Just Agriculture

Just Agriculture e-Magazine is an open access peer reviewed e-magazine and e-newsletter which will start publishing from August, 2020. The magazine will provide a platform to all the researchers, students, scholars and scientists to share their ideas about latest innovative topics. The aim of Just agriculture e-magazine is to publish about latest innovations and upcoming experimental technologies to be adopted globally in field of agriculture and allied sciences. This would help in disseminating scientific information and latest findings among the scientific community related to agriculture all over the globe.

Objective

To understand the concept of Agripreneurship and skill development.
To get familiar with the support ecosystem available for agripreneurs.

Course Outcome

- To have an exposure in Agripreneurship and recent technologies in agriculture.
- Student learns about the post harvest technology, Food processing, Apiculture, sericulture and Lac culture.
- To learn about the sustainable crop production and renewable energy.
- To learn hydroponics and aquaculture techniques.
- To gain knowledge for business Start-Ups and government schemes.
- To learn about business opportunities in the sector of mushroom cultivation and vermicompost.

Online Training Programme Schedule

Course Duration 16th to 30th Dec. 2021

Online Training Programme will be for two hours from 10:00 AM to 12:00 Noon on daily bases. Student must join the session 15 Minutes' prior to starting time.

Vision

- To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission:

- To promote intellectual and skilled human capital generation employment and entrepreneurship.
- To be educational centre of excellence of multi ethnicity and diversity.
- To establish as technology driven teaching learning institution.
- To provide world class platform for research and innovation.
- To inculcate social, environmental, heritage values.

Hands-on Short-Term Course on Deep Neural Networks

Content

1. Classifiers: Nearest Neighbor Classifier, K - Nearest Neighbor Classifier, Linear Classifier, Support Vector Machine, Non-linear SVM, Multi-class SVM, Softmax Classifier

2. Neural Networks: Gradient Descent, Back propagation, Chain Rule, Perceptron, Neural networks, Multilayer neural networks, Neural network for image classification

3. Convolutional Neural Network (CNN): Convolution Layer - Local connectivity, Weight sharing, Handling multiple input channels, Handling multiple output maps, Non-linearity Layer (Activation Functions) - Sigmoid, tanh, ReLU, Leaky ReLU (LReLU), Parametric ReLU (PReLU), ELU, SELU, Swish, etc.. Pooling Layer - Average Pooling, Max Pooling, Fully-Connected Layer, Classification Layer. Progress on ImageNet Classification Challenge

4. Training Network: Dataset Preparation - Train/Validation/Test set splitting rule, Data Preprocessing, Zero-centering, Normalization, Weight Initialization, Regularization - Batch Normalization, Dropout, Data Augmentation, Optimizers - Stochastic Gradient Descent (SGD), AdaGrad, RMSProp, Adam, etc., Learning Rate Schedule, Transfer Learning

5. CNN Architectures: LeNet, AlexNet, ZFNet, VGGNet, GoogleNet, and ResNet, R-CNN: Region Proposal based CNN, Fast R-CNN, Faster R-CNN, YOLO (You Only Look Once)

6. Generative Adversarial Networks: GAN, Generator Network, Discriminator Network, Image-to-Image Translation

Respected Sir/Madam,

As advised by COE sir, this is to request you to please provide the list of the evaluators as per the attached excel file.

Please Note :

1. In case you want to suggest more than one evaluator from your team, kindly add one row under the subject name and add details.
2. Please speak to the evaluators before forwarding the name. They should be ready to do the evaluation within three days after the copies are allotted.
3. The last date for submission of all copies will be Wed 30th Sept. by 7 PM So, carefully suggest the number of copies to be allotted in front of the evaluator details.

We expect you to reply with the details by 7 PM today i.e. 25th Sept 21

If required a doubt clearing session on evaluation and procedure can be planned, please write down the requirement in the reply mail.

Thanking you,
 Online Exam Support Team
