This is to certify that Shikha Verma has completed her 60 hours of summer internship with AASRA. Her internship period was from 5th July 2022 to 3rd August 2022.

During her internship Shikha worked for Cloth and Utility Bank. She volunteered for collection, segregation and distribution of clothes to the poor and needy and utility items. It involved collection of clothes and utility items from various donors. Segregation involved sorting the clothes demographically and distribution involved conducting of distribution drive where boxes were kept open for beneficiaries to freely chose the clothes.

She also volunteered for food distribution and teaching activity held at Town Hall of Bhagalpur which involved giving foods to poors and giving them education and motivational ideas to grow more.

Her intense dedication, punctuality and hard work made her complete the assigned work within the given time.

Shikha demonstrated strong management skills during the activities and drives. I found her both conscientious and courteous. She was an excellent addition to the team and conducted all the distribution drives with full enthusiasm.

Her association with us was very fruitful and we wish her all the best for future endeavours.

To Whom It May Concern

My name is Utkarsh Mishra I am the Team Lead Manager at Vaug Digital Solution. I am writing this letter in order to support Mr. Nikhil Mathur and his desire to join your company. I have been acquainted with Nikhil since one month now and I have observed all his attributes very seriously during this time. Being an intern, Nikhil is sincere, punctual and obedient against the popular conception of the people of his age being rude or unprofessional.

When Nikhil applied for an internship here at Vaug Digital Solutions for the post of a part-time Website developer intern, we were amazed by his experience in the field because he is just 21 and was in the third year of college. We were surprised to see his enthusiasm and an unquenchable thirst for learning new things. As a website developer Nikhil created codes for our client's website using various technologies. Our company helps other businessmen by outsourcing their business requirements and software development is one of the major services we provide. Nikhil has worked really hard in keeping up with our reputation as leading developers and has always helped us deliver quality to our clients through his efforts. His work spoke for itself and never in his tenure at this company did we ever have to encounter an unpleasant scenario due to his fault. He was patient, determined and smart in all the ways possible which made his bond really well with the other employees. Every role that was given to him was justified and we are proud to have given a chance to such a talented young boy.

I strongly recommend him as the Software developer for your facility and hope that he'll make you as proud as all of us. In the case of any queries or questions, you can contact me at the digits given above or drop me at my email ID as well.

Utkarsh Mishra

Letter of recommendation

I am writing this letter to recommend Saurabh Kumar as a DevOps & Cloud Engineer for your organisation. Saurabh Kumar in my opinion , reached the level with his exceptional performance. But our organisation is not growing to the point where we can make him a DevOps Engineer , so I suggested that he explore his options.

Saurabh Kumar is exceptionally responsive to his duties and is able to interpret even the most complex instructions. He is already a resource for the people in his department and he has been acting as an unofficial supervisor for months. The move to becoming an official DevOps Engineer is the next logical step for him.

Saurabh Kumar has been the team lead on several project points and that was at my recommendation and the insistence of the employees. Saurabh Kumar has garnered nothing but respect from his peers and they view him as a supervisor right now. He has earned the title of DevOps Engineer and your company would benefit greatly from hiring him.

While I will be sad to lose Saurabh Kumar, I feel that this move is the right one for his career. Should you have any questions, please feel free to email us at contact@devlance.in .

Sincerely Yours,

Team Devlance
