Report on Personality Development Session

Facilitator: Ms. Yamini Goel

Date: 22nd august 2022 -27th august 2022

Introduction:

The Personality Development Workshop, conducted by Ms. Yamini Goel, aimed to empower participants with essential skills and insights to enhance their personal and professional growth. The session focused on various aspects including communication skills, self-confidence, body language, and leadership qualities.

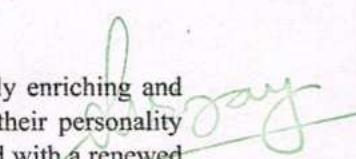

- Effective Communication Skills: Ms. Goel emphasized the significance of effective communication in personal and professional spheres. Participants were encouraged to improve their verbal and non-verbal communication skills to convey messages clearly and confidently.
- Self-Confidence Building: Techniques to boost self-confidence were discussed extensively. Ms. Goel guided participants to identify their strengths and work on areas needing improvement. Practical exercises were conducted to instill confidence and self-belief.
- Body Language and Image Management: The impact of body language on perception and impression management was explored. Participants learned the importance of positive body language, including posture, gestures, and eye contact, in conveying confidence and credibility.
- Emotional Intelligence: Understanding and managing emotions were highlighted as essential components of personality development. Ms. Goel shared insights on enhancing emotional intelligence to build stronger interpersonal relationships and navigate challenges effectively.
- Leadership Development: The workshop addressed key attributes of effective leadership and strategies for developing leadership skills. Participants were encouraged to cultivate leadership qualities such as vision, integrity, and resilience to excel in their respective roles.

Interactive Activities:

- Role-plays: Participants engaged in role-plays to practice effective communication and conflict resolution techniques.
- Group Discussions: Interactive group discussions facilitated sharing of experiences and insights on various personality development topics.
- Feedback Sessions: Participants received constructive feedback from Ms. Goel and peers to identify areas for improvement and refine their skills.

Conclusion:

The Personality Development Workshop conducted by Ms. Yamini Goel was highly enriching and insightful. Participants gained valuable knowledge and practical tools to enhance their personality traits and succeed in both personal and professional endeavors. The session concluded with a renewed sense of motivation and commitment to continuous self-improvement.

Report on Aptitude and Reasoning Session

Facilitator: Mr. Sachin Arora

Date: 22nd august 2022 -27th august 2022

Introduction:

The Aptitude and Reasoning Workshop, conducted by Mr. Sachin Arora, aimed to equip participants with essential skills and strategies to excel in aptitude tests and reasoning assessments commonly encountered in academic and professional settings. The session focused on enhancing logical reasoning, problem-solving abilities, and numerical proficiency.

- Understanding Aptitude Tests: Mr. Arora provided insights into the structure and types of aptitude tests commonly used by employers and educational institutions. Participants gained clarity on the importance of aptitude assessments and strategies to approach them effectively.
- Logical Reasoning Techniques: Various techniques for improving logical reasoning skills were discussed, including deductive reasoning, pattern recognition, and syllogism. Participants were guided through practical exercises to enhance their logical thinking and analytical abilities.
- Numerical Proficiency: Strategies for solving numerical problems efficiently were shared, covering topics such as arithmetic, algebra, and data interpretation. Mr. Arora emphasized the importance of mastering basic mathematical concepts and practicing regularly to build numerical proficiency.
- Problem-Solving Strategies: Participants learned effective problem-solving strategies, including breaking down complex problems into smaller, manageable tasks, and applying logical reasoning to arrive at solutions. Practical examples and case studies were used to illustrate problem-solving techniques.
- Time Management: The workshop addressed the significance of time management in aptitude tests and reasoning assessments. Mr. Arora provided tips and techniques for managing time effectively during exams, including prioritizing questions, allocating time for each section, and avoiding time-consuming pitfalls.

Interactive Activities:

- Practice Tests: Participants engaged in practice tests to assess their aptitude and reasoning skills and identify areas for improvement.
- Group Exercises: Collaborative group exercises were conducted to solve complex problems and enhance teamwork and collaboration skills.
- Q&A Sessions: Interactive Q&A sessions provided participants with opportunities to seek clarification on concepts and strategies discussed during the workshop.

Conclusion:

The Aptitude and Reasoning Workshop conducted by Mr. Sachin Arora was highly informative and beneficial. Participants gained valuable insights and practical skills to tackle aptitude tests and reasoning assessments with confidence and competence. The session concluded with a sense of empowerment and readiness to apply learned techniques in academic and professional settings.

Report on Technical Session

Facilitator: Mr. Kuldeep Singh

Date: 22nd August 2022 - 27th August 2022

Introduction:

The Technical Session, led by Mr. Kuldeep Singh, aimed to provide participants with valuable insights and knowledge in a specific technical field. The session focused on discussing key concepts, industry trends, and practical applications to enhance participants' understanding and expertise in the subject matter.

- Topic Overview: Mr. Kuldeep Singh provided an overview of the topic to be covered during the session, outlining its relevance and significance in the context of the industry or academic discipline.
- In-Depth Discussion: The session delved into the intricacies of the topic, covering theoretical foundations, practical implementations, and real-world examples. Participants had the opportunity to engage in discussions and ask questions to deepen their understanding.
- Case Studies and Examples: Mr. Singh presented case studies and examples to illustrate the practical applications of the concepts discussed. Participants were encouraged to analyze and discuss these examples to gain insights into real-world scenarios.
- Emerging Trends: The session highlighted emerging trends and advancements in the field, providing participants with valuable insights into the latest developments and future directions. Mr. Singh discussed how these trends could impact the industry or field of study.
- Hands-on Activities: Depending on the nature of the topic, hands-on activities or demonstrations may have been conducted to allow participants to apply their knowledge and skills in a practical setting. This could include workshops, simulations, or experiments.

Interactive Components:

- Q&A Sessions: Participants had the opportunity to ask questions and seek clarification on concepts discussed during the session.
- Group Discussions: Interactive group discussions were facilitated to encourage knowledge sharing and collaboration among participants.
- Interactive Demonstrations: Hands-on demonstrations or interactive simulations may have been conducted to illustrate key concepts and principles.

Conclusion:

The Technical Session led by Mr. Kuldeep Singh was highly informative and engaging. Participants gained valuable insights into the topic discussed and developed a deeper understanding of its practical applications and relevance. The session concluded with participants feeling empowered and inspired to apply their newfound knowledge in their professional or academic endeavors.

NOTICE

"Commencement of GATE 2023 Classes in All Engineering Departments"

We are pleased to announce the commencement of GATE 2023 preparatory classes for all engineering departments at Tula's Institute. The Graduate Aptitude Test in Engineering (GATE) is a significant examination that evaluates the comprehensive understanding of various engineering and science subjects.

GATE is not just an examination; it is a gateway to numerous opportunities in higher education, research, and public sector undertakings. A good GATE score opens doors to prestigious postgraduate programs in engineering, technology, and architecture at leading institutes in India and abroad.

Details of the classes are as follows:

Date of Commencement: 3rd September 2022

Venue: As per department

For any further queries, please feel free to contact HoD.

Best wishes for a successful preparation!

Vision

- To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission:

- Promote intellectual and skilled human capital generation employment and entrepreneurship.
- Be educational centre of excellence of multi ethnicity and diversity.
- Establish as technology driven teaching learning institution.
- Provide world class platform for research and innovation.
- Inculcate social, environmental, heritage values.

Report on GATE 2023 Preparation Classes across Engineering Departments at Tula's Institute

Introduction:

Tula's Institute, located in Dehradun, is renowned for its commitment to providing quality education in engineering and technology. In anticipation of the Graduate Aptitude Test in Engineering (GATE) 2023, the institute organized comprehensive preparation classes across various engineering departments to equip students with the necessary skills and knowledge required to excel in the examination.

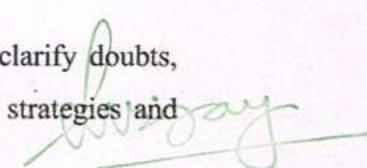

Objective:

The primary objective of the GATE 2023 preparation classes at Tula's Institute was to prepare engineering students for the rigorous examination conducted for admissions to postgraduate programs in prestigious institutions and for lucrative career opportunities.

Methodology:

The preparation classes were meticulously planned and executed by experienced faculty members with expertise in their respective domains. The methodology adopted included:

- Structured Curriculum: A detailed curriculum was designed for each engineering department, focusing on the specific requirements of the GATE examination while aligning with the academic syllabus.
- Comprehensive Study Material: High-quality study material comprising textbooks, reference materials, and practice questions were provided to the students to aid their preparation.
- Interactive Sessions: Regular interactive sessions were conducted to clarify doubts, discuss complex concepts, and provide additional guidance on exam strategies and time management.

- **Mock Tests and Assessments:** Periodic mock tests and assessments were administered to gauge the students' understanding of the subject matter and track their progress over time.
- **Individual Counseling:** Individual counseling sessions were organized to identify the strengths and weaknesses of students and provide personalized guidance for improvement.

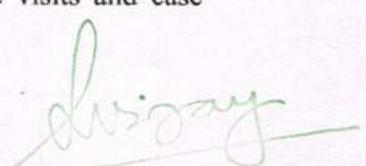

Department-wise Initiatives:

The GATE 2023 preparation classes were conducted across various engineering departments at Tula's Institute, including:

- **Mechanical Engineering:** Special emphasis was laid on core mechanical engineering subjects such as thermodynamics, fluid mechanics, and strength of materials. Practical workshops were organized to enhance students' understanding of concepts.
- **Electrical and Electronics Engineering / Electronics Communication Engineering:** The curriculum focused on subjects like electrical circuits, power systems, electrical machines, signal system, EMFT, EDC, digital electronics, analog communication and control systems. Hands-on experiments and simulations were incorporated to reinforce theoretical knowledge.
- **Computer Science & Engineering:** In-depth coverage of algorithms, data structures, programming languages, and computer networks was provided. Coding competitions and hackathons were organized to foster problem-solving skills.
- **Civil Engineering:** Fundamental concepts in structural analysis, transportation engineering, and environmental engineering were emphasized. Site visits and case studies were conducted to provide real-world insights.

Outcome:

The GATE 2023 preparation classes at Tula's Institute yielded significant outcomes, including:

Director
Tula's Institute, Dehradun

Vision

- To emerge as an academic centre producing world class professionals promoting innovation and research.

Improved Subject Proficiency: Students exhibited enhanced proficiency in their respective engineering disciplines, as evidenced by their performance in mock tests and assessments.

Enhanced Problem-solving Skills: The preparation classes honed students' analytical and problem-solving abilities, enabling them to tackle complex problems with confidence.

Confidence Boost: Students reported increased confidence levels owing to the thorough preparation and guidance received during the classes.

Conclusion:

The GATE 2023 preparation classes conducted across engineering departments at Tula's Institute played a pivotal role in equipping students with the requisite knowledge, skills, and confidence to excel in the examination. The initiative underscored the institute's commitment to fostering academic excellence and preparing students for rewarding careers in engineering and technology.

Scheme Implementation schedule

Branch	Unit Cover	No. Units
EEE /Civil /ECE/CSE /ME	Engineering Mathematics	01 Unit
EEE	Electric Circuits, Electromagnetic Fields, Signals and Systems, Electrical Machines, Power Systems, Control Systems, Electrical and Electronic Measurements, Analog and Digital Electronics, Power Electronics	08 Units
Civil	Structural Engineering, Geotechnical Engineering, Water Resources Engineering, Environmental Engineering, Transportation Engineering, Geometrics Engineering	06 Units
CSE	Digital Logic, Computer Organization and Architecture, Programming and Data Structures, Algorithms, Theory of Computation, Compiler Design, Operating System, Databases, Computer Networks	08 Units
ME	Applied Mechanics and Design, Fluid Mechanics and Thermal Sciences, Materials, Manufacturing and Industrial Engineering	07 Units
ECE	Networks, Signals and Systems, Electronic Devices, Analog Circuits, Digital Circuits, Control Systems, Communications and Electromagnetics.	08 Units

Prof. Preetam Kumar M. Mohite
Organizing Chairman, GATE 2023
on behalf of NCB-GATE, for MoE

* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this score card.

General Information

The GATE 2023 score is calculated using the formula

$$\text{GATE Score} = S_q + (S_t - S_q) \frac{(M - M_q)}{(M_t - M_q)}$$

where,

M is the marks obtained by the candidate in the paper, mentioned on this GATE 2023 scorecard

M_q is the qualifying marks for general category candidate in the paper

M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)

$S_q = 350$, is the score assigned to M_q

$S_t = 900$, is the score assigned to M_t

In the GATE 2023 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2023 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Graduate Aptitude Test in Engineering (GATE) 2023 was organized by Indian Institute of Technology Kanpur on behalf of the National Coordination Board (NCB) – GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

Important Instructions for the Candidate

1. A printed copy of the Admit Card must be presented for verification along with the original (not photocopy or scanned copy) valid photo identification proof. In case of poor quality of photo on the ID proof, candidate MUST bring an additional recent valid photo ID (Valid Photo IDs: Passport, PAN Card, Voter ID, Aadhaar Card, Driving License). Soft copy of Admit Card is not Acceptable.
2. To facilitate the verification of their identity by the Centre officials, candidates must report to the examination venue at least 90 minutes before the scheduled commencement of the examination. Candidates will NOT BE ALLOWED to login 30 minutes after the start of the exam.
3. Candidates can login and start reading the instructions 20 minutes before start of the examination.
4. During the examination, a virtual scientific calculator will be available on the computer screen, which may be used for numerical calculations. Personal calculators, mobile phones, watches of any kind or any other electronic devices are **STRICTLY PROHIBITED** inside the examination hall.
5. Candidates should NOT bring any charts/ tables/ papers/ books/ sheets/ heavy ornaments into the examination hall.
6. A Scribble pad will be provided for the rough work. Before using it, candidates must write their Individual Name and Registration Number. The candidates can possess ONLY ONE scribble pad at any point of time. If the scribble pad gets filled, candidates can request for second scribble pad, after returning the first one to the invigilator. At the end of the examination, the remaining scribble pad must also be returned to the invigilator.
7. Candidates must bring their own pen, pencil, transparent water bottle, mask, and pocket-sized hand sanitizer.
8. Candidates are not allowed to bring any items other than those mentioned above. GATE authorities are not responsible for the safekeeping of candidate's personal belongings. If the candidate is found to possess any of the prohibited items, candidate will be deregistered/ barred from the examination and/or subjected to disciplinary action, which may include ban from appearing in future examinations.
9. Candidates will not be permitted to leave the examination hall before the end of the examination.
10. Violation of any of the above guidelines including impersonation or breaking of CODE OF CONDUCT for GATE 2023 exam will lead to cancellation of candidature and/or initiation of legal action.
11. Candidates are required to follow prevailing Covid-19 related norms as advised by Government.

TULA'S INSTITUTE

Guest Lecture on “Employability”

by Dr. Raghvendra Sharma dated 17 th November, 2022

Event Organizer: Graduate School of Business (GSB)

Date: 17th November 2022

Event Coordinator: Ms. Megha Ahuja & Ms. Laxmi Negi

Venue: Auditorium

Objective

The objective of this guest lecture was to enhance employability skills and competencies of students so that it becomes easier for them to get employment in future and further develop their career in the most effective way. Other motive was to enhance students' confidence level and give them the competitive advantage in their career prospects. It further also helps them to understand the importance of effective communication, leadership skills, ethical behavior, professionalism and teamwork at the workplace.

Summary Report

Tula's Institute has successfully directed a guest lecture on “Employability” on 17.11.2022. The event was carried out by Dr. Raghvendra Sharma, Dean (o) at ICFAI Business School, ICFAI University, Dehradun. Event started with the introduction about employability skills, relevance about them in student's future career prospects and how to enhance them.

Dr. Raghvendra Sharma helped students in strengthening their employability skills and competencies, in developing and benefitting in their career profile. A Guest Lecture which is conducted with a motive to develop student's transferable skills, understanding the importance of effective communication, leadership skills, time management, ethical behavior, professionalism and teamwork at workplace.

This guest lecture helped the students to develop their confidence to how to face the corporate world in their coming future and also motivated the faculties how to inculcate these skills among their students.

Outcome:

- *Knowledge Enhancement:* With the help of this guest lecture, students get to know the key employability skills and competencies that a student should possess once they jump in the corporate world. They got to know about various skills such as interpersonal skills, communication skills, leadership skills and other skills required in the corporate world.
- *Effective Communication Skills:* The guest lecturer explained the importance of communication in the employment world and also suggested the practical ways to improve it.
- *Enhancement of student's confidence :*-Through this guest lecture, students felt confident as to how to face the interview sessions and be effective leaders at the workplace.

Subject:- Student Alumni Interaction (Guest Lecture)

The Society of Mechanical Engineering, Tula's Institute is going to conduct a "Guest Lecture" on the topic "Career Options and Challenges for Mechanical Engineers" on 11 March 2023. The guest for the session is Mr. Kundan Kumar Singh, Lecturer at Board of Technical Education, Govt. of Uttar Pradesh, M. Tech (IIT - ROPAR). The session will be on online mode (Google Meet) in mechanical engineering department.

The details of the "Guest Lecture Session" are as follows:-

Name of the Alumni: - Mr. Kundan Kumar Singh
Designation: - Lecturer at Board of Technical Education, Govt. of Uttar Pradesh
Date and Day: - 11/03/2023 & Saturday
Time: - 02:00 P.M. onwards

Mr. Ankit Jain
Head of Department
Mechanical Engineering

HOD
Department of Mechanical Engineering
Tula's Institute, Dehradun

Vision
• To emerge as an academic centre producing world class professionals promoting innovation and research.

Mission:
• Promote intellectual and skilled human capital generation employment and entrepreneurship.
• Be educational centre of excellence of multi ethnicity and diversity.
• Establish as technology driven teaching learning institution.
• Provide world class platform for research and innovation.
• Inculcate social, environmental, heritage values.

Guest Lecture on

"Career Options and Challenges for Mechanical Engineers"

The Society of Mechanical Engineering, Tula's Institute is going to conduct a "Guest Lecture" on the topic "Career Options and Challenges for Mechanical Engineers" on 11 March 2023. The guest for the session is **Mr. Kundan Kumar Singh, Lecturer at Board of Technical Education, Govt. of Uttar Pradesh, M. Tech (IIT –ROPAR)**. The session will be on online mode in mechanical engineering department.

Major Skills required in Industry for Student

- **Problem solving Skills:** - It includes analyze contributing factors to solve a problem, you must find out what caused it, generate interventions. Once you've determined the cause, brainstorm possible solutions. Evaluate Solutions. Implement a plan. Assess the Solution's effectiveness.
- **Knowledge:** - Knowledge is defined as **what is learned, understood or aware of**. An example of knowledge is learning the alphabet. An example of knowledge is having the ability to find a location. An example of knowledge is remembering details about an event.
- **Taking Initiative:** - Taking initiative means **thinking proactively about tasks** not just to check them off a list, but to get them done well. It's about going the extra mile on the basic tasks you're assigned, thinking through complications, and taking on work before someone asks you to.
- **Risk Taking Ability:** - Risk taking is **the ability to identify, assess and strive to achieve business objectives in the face of substantial odds**. First, it is important to note that open risk-taking is generally not productive. Instead, successful managers tend to take risks in ways that limit their potential losses.
- **Self Confidence:** - Self-confidence is **an attitude about your skills and abilities**. It means you accept and trust yourself and have a sense of

Vision

control in your life. You know your strengths and weakness well, and have a positive view of yourself. You set realistic expectations and goals, communicate assertively, and can handle criticism.

OBJECTIVE

The Objective of Alumni Student Interaction Session was to share the proficiency with skills required in industry which will aid students to improvise their career. He shared his experience and motivated the students towards their goal. He gave many links to search for desired jobs to the student's community and at the end of the session; there was an interactive session with the alumni answering to various queries raised by the students. Finally, the session ended with the vote of thanks by the department alumni coordinator. It aims to encourage, foster and promote close relations among the alumni themselves as well as current batch of students. The responsibilities and assignments of industry operations

OUTCOMES OF THE EVENT

The new trends and future scope of mechanical engineering in railway industry mechanical engineers in Indian railways look for **train operations like crew management, motive power ability, traffic restoration, repair and rolling stock management and manufacturing etc.**

- Carrying out the secondments for experimental methods in Industry.
- Carrying out the secondments for theoretical methods in Industry.
- Carrying out the secondments for theoretical methods of mechanical structures fatigue.
- Dynamics Organization of skills enhancing process.

So much of good training comes from precise clicker use, treat delivery, and observational skills. When these skills are practiced regularly, with care and accuracy, they become automatic and **allow trainers to focus on other aspects of the behaviour being trained.**

A career in mechanical engineering is both highly lucrative and intrinsically rewarding. However, engineers must have a solid educational background and training to get started on their career path. Therefore, a bachelor's degree in mechanical engineering (or mechanical engineering technology) is essential.

Program Title: ICT Academy - Honeywell - Microsoft Data Analyst Associate (DA-100) Training Program

Organizers:

- ICT Academy
- Honeywell
- Microsoft

Program Duration:

- Start Date: 12th December 2022
- End Date: 28th December 2022

Program Overview:

The Data Analyst Associate (DA-100) certification training, collaboratively organized by ICT Academy, Honeywell, and Microsoft, aims to equip participants with essential data analysis skills using Microsoft Power BI. The course is specifically designed to help professionals enhance their ability to analyze and visualize data, enabling them to generate insights and make data-driven decisions effectively.

Target Audience:

This training program is tailored for aspiring data analysts, professionals working in related fields, and individuals interested in learning advanced data analysis and visualization techniques.

Course Content Highlights:

1. **Data Preparation:**
 - Importing and transforming data from multiple sources.
 - Cleaning and shaping data for analysis.
2. **Data Modeling:**
 - Developing robust data models and relationships.
 - Managing data security and privacy.
3. **Data Visualization:**
 - Building interactive reports and dashboards in Power BI.
 - Applying advanced formatting and visuals for effective storytelling.
4. **Analyzing Data:**
 - Using Power BI's native analytical capabilities to derive insights.

Vision

- To emerge as an academic centre producing world class professionals promoting innovation and research.

- Incorporating AI-driven insights into data models.

5. Optimization:

- Optimizing report performance and managing large datasets.

Certification:

At the end of the training, participants will be eligible to take the Microsoft Data Analyst Associate certification exam (DA-100). Successfully passing the exam will certify them as Microsoft Certified Data Analysts, adding significant value to their professional qualifications.

Key Benefits:

- Hands-on experience with Microsoft Power BI.
- Certification from globally recognized brands, including Microsoft.
- Industry-aligned curriculum designed to meet real-world requirements.

Conclusion:

The ICT Academy - Honeywell - Microsoft Data Analyst Associate (DA-100) training, held from 12th December to 28th December 2022, provides participants with a valuable opportunity to develop in-demand data analysis skills.

Vision

- To emerge as an academic centre producing world class professionals promoting innovation and research.

NOTICE

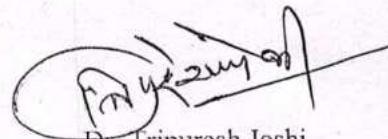

This is to inform all students and participants that a **30-hour training program** as part of the **ICT Academy - Microsoft Philanthropies CSR Stage 2** will be conducted as per the following details:

- **Start Date:** 21st February 2023
- **Duration:** 30 hours
- **Venue:** Lab 5, Tula's Institute
- **Organizers:** ICT Academy and Microsoft Philanthropies

This program aims to provide participants with key digital skills and training in areas such as Microsoft Office, cloud computing (Azure), data analytics, and Power BI. It is designed to enhance employability, particularly for individuals from underserved communities.

Participants are encouraged to make use of this opportunity to gain valuable certifications and hands-on experience that will boost their career prospects in the technology sector.

For further details, please contact the program coordinator.

Program Title:

ICT Academy - Microsoft Philanthropies CSR Program (30-hour Training)

Organizers:

- ICT Academy
- Microsoft Philanthropies

Program Duration:

- Start Date: 21st February 2023
- Total Duration: 30 hours

Program Overview:

As part of their Corporate Social Responsibility (CSR) initiative, ICT Academy and Microsoft Philanthropies launched a 30-hour training program on 21st February 2023. The program was aimed at providing essential digital skills and certification opportunities to underserved communities, with a focus on increasing employability and fostering digital empowerment.

Objectives:

1. **Digital Skills Enhancement:** Deliver digital literacy and specialized skills in emerging technologies, preparing participants for roles in the tech industry.
2. **Empowerment through Certification:** Enable participants to gain certifications that validate their skills in the global job market, with a particular focus on Microsoft certification exams.
3. **Inclusion and Diversity in Workforce:** Support and encourage underrepresented communities, including women, differently-abled individuals, and economically disadvantaged groups, to gain access to education and opportunities in the technology sector.

Program Highlights:

1. **Training Content:** The 30-hour training program covered foundational digital skills along with advanced topics in Microsoft Office, cloud computing (Azure), data analytics, and digital tools for business productivity. Participants were also introduced to Power BI for data visualization and analysis.
2. **Certification Preparation:** The program provided resources and preparation material for certifications such as Microsoft Certified: Azure Fundamentals and Microsoft

Vision

- To emerge as an academic centre producing world class professionals promoting innovation and research.

Certified: Data Analyst Associate. By the end of the training, participants were encouraged to take these exams.

3. **Hands-on Experience:** Through interactive sessions and practical exercises, participants were able to apply the skills they learned. This hands-on approach was aimed at enhancing the learning experience and providing real-world applicability of the concepts.
4. **Mentorship and Career Guidance:** The CSR program included career mentoring sessions where participants received guidance on job searches, résumé building, and interview preparation. These sessions helped participants navigate their career paths and leverage their newly acquired skills.

Target Audience:

The program was designed for individuals from economically disadvantaged backgrounds, women, and other underrepresented groups in the technology sector. It aimed to provide these communities with the tools and knowledge necessary to succeed in the digital economy.

Program Impact:

- **Skill Development:** Participants gained a solid foundation in digital skills, preparing them for entry-level roles in the tech industry or enabling them to improve their current job performance.
- **Increased Employability:** With access to Microsoft certifications and practical skills, participants were better positioned to apply for roles in IT, data analysis, cloud computing, and other tech-based careers.
- **Community Empowerment:** By providing accessible, high-quality education to underserved communities, the program contributed to long-term community upliftment through technology-driven economic opportunities.

Conclusion:

The 30-hour ICT Academy - Microsoft Philanthropies CSR program, starting on 21st February 2023, was an impactful initiative that delivered essential digital skills training to underserved communities. With its focus on certification, career development, and inclusivity, the program succeeded in empowering participants with the tools needed to thrive in the digital economy.
