2.5.2: Mechanism to deal with internal/external examination related grievances is

Transparent, time-bound and efficient

Examination grievances of students related to late application form filing, non-receipt of admit Card of examinations or wrong entries in the admit card are communicated to University Examination cell with the assistance of the examination cell of the institution. Grievances related to out of syllabus questions and question paper errors are taken up by the Examination cell of the institution and a grievance is raised with the university examination Grievance cell. The institution takes urgent initiative for resolving group grievances, if any, regarding university assessment and evaluation. Evaluation of Semester End Theory Exam Answer sheets is conducted by the university as per marking scheme conveyed to the students. Subsequently, university informs the institution and students the results of the examinations. The results are displayed in the notice board of the institution and on the university website. Any grievances related to the exam are sent to the university liaison officer who deals with the Institute. The grievance is registered in logbook maintained at the university. Students can Request for photocopy of the answer scripts. The photocopy of answer script shall be mailed to the student by university. After going through answer papers student can apply for revaluation.

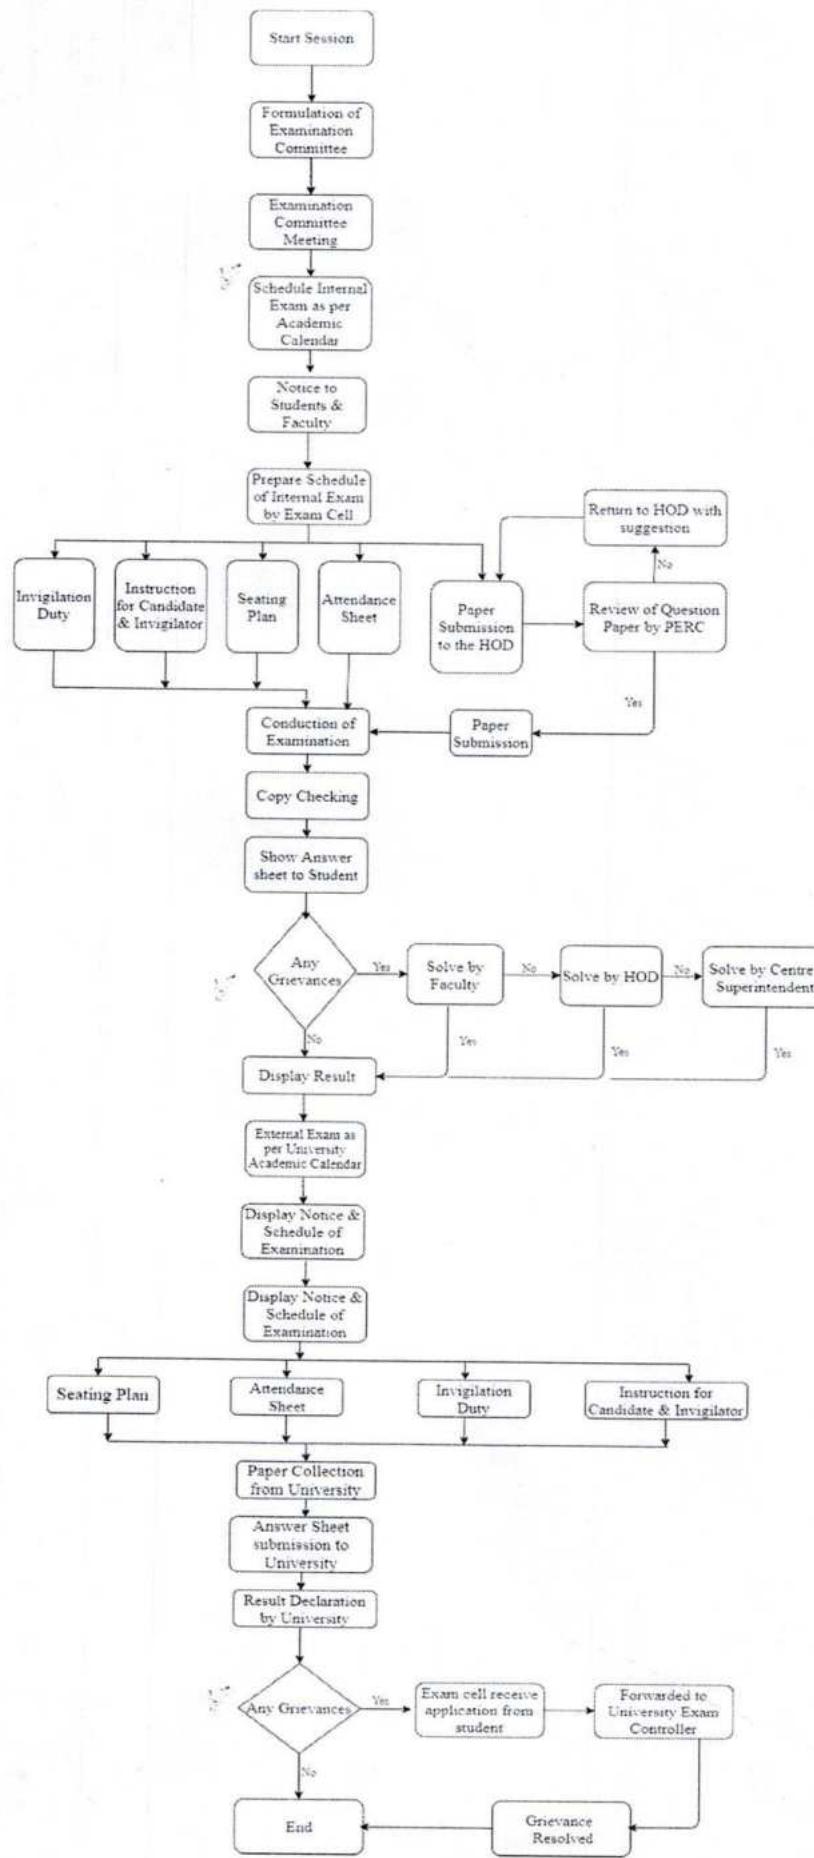

The institution ensures that examination related grievances are sorted out in a proper manner by coordinating with university. Students also have right to challenge the evaluation of answer Books. Evaluation of Internal Assessment answer sheets is based on marking scheme decided in Advance by the respective department. Answer sheets are provided to students after completion of moderation and evaluation, for verification of marks. Any student grievances are addressed transparently by the teacher by re-evaluating jointly with the students on a time bound manner within one week. If the student is unsatisfied with the re-evaluation, she or he can approach the Head of Department or through grievance redressal portal on institution website. Further, Student is also given option to approach the director, if the response is unsatisfactory. Random quality checks of moderation and evaluation is conducted by the Head of the Department to ensure consistency in the internal assessment process. All records and data bank of attendance is maintained in examination cell and course outcome wise details of student Performance is also kept in respective course files for academic monitoring and audit.

Procedure for Submission of Application for Supply of Photocopy (ies) of Assessed Answer Book(s):

1. The student who has grievances fills the Application form and signs it.
2. The candidate shall submit their application forms along with the requisite fees to the Registrar of the institution who forwards the same to concerned person in the University.

For laboratory courses, student must submit lab record as per the timeline. Students Performance is assessed for every experiment. The practical approach to real-time applications is tested by viva-voce. The marks scored by student for each experiment is recorded. Any Grievances related to laboratory exams are raised to the examination cell.

Internal Examination Grievance Redressal Mechanism (w.e.f Session 2015-16)

A student shall be entitled to reevaluate his/her answer books on the basis of application. re-evaluation is done in following conditions-

- a. If the student is not satisfied with the given marks.
- b. If the student is marked absent but he appeared in examination.
- c. If there is any mistake in the totaling of marks.
- d. If any answer is unchecked by the evaluator.

The grievances related to internal examination is resolved as follows:

1. The evaluated answer sheet is shown to the student and if the student is not satisfied with the evaluation, he/she can raise the grievance to the respective faculty member. The faculty member will address his/her grievances and resolve it at their end.
2. If the student is not satisfied with the solution provided by the respective faculty member, he/she can raise the grievance to the concerned HOD and he/she will resolve it within his/her delegated domain of power.
3. In Case of any doubts after the solution provided by the HOD, the student may contact the examination cell.

Examination cell shall address all the applications pertaining to internal examination grievances against examination/evaluation within 10 days after the display of answer sheets to the concerned students. All applications should be addressed to centre superintendent.

Once received by the centre superintendent, the application of re-evaluation is forwarded to the respective head of the department. The concerned subject faculty member will re-evaluate the answer sheet in presence of centre superintendent. The re-evaluated answer sheet will be forwarded to the examination cell.

The examination cell will show the re-evaluated answer sheet to the concerned student.

Q16

~~Shriya~~
Director
Tula's Institute, Dehradun

buy

In 1939)

Macroeconomics :- Study of economy as a whole.
The term macroeconomics is derived from the Greek word makros (means large) & Economics (means household management).
There are several variables of macroeconomics, the two variables are:-

Unemployment :- Unemployment is a situation when people are willing to work but they are unable to find the right job.

Reasons of unemployment are:-

- poor education
- lack of awareness of government schemes.

(3 Pgs)

National Income :- National Income is the income earned during a year by a country. Overall ~~by~~ income generated during fiscal year

1. Govt
Director
Institute, Dehradun

National Income consist of :-
aggregate demand :- Total Demand for the goods & the services in an economy within a year.

$$\boxed{AD = C + I}$$

C = Consumption = Part of income consumed

I = Savings = Part of income saved.

Aggregate supply :- total supply of goods & services in the economy

$$\boxed{AS = C + I}$$

\textcircled{C} = Consumption done by in the economy

$$AD = C + I$$

$$AS = C + S$$

$$AS = C + S$$

shrey
Director
Tula's Institute, Dehradun

shrey

- H b) ① Repo rate :- A part of Quantitative instrument in which the RBI gives loan to commercial banks for short term period.
- Excess Demand :- In case of Excess Demand the Repo rate gets increased by the bank, the borrowings will get decrease & ultimately the demand will reduce.
 - Deficient demand :- In this case of the demand, the Repo rate decreases, the borrowings will increase & the demand will also increase.

- ② Reverse Repo rate :- A part of Quantitative instrument in which the commercial Banks gives loan amount to the RBI.

by Shrey
Shrey
Director
Tula's Institute, Dehradun

- Excess demand :- In case of excess demand, Reverse Repo. rate or interest rate will increase which would lead to decline in borrowings & ultimately the demand will fall.
- Deficient demand :- In case of deficient demand, the RBI will Decrease the Rate of Interest, then the borrowings will also increase & the demand of will also increases.

(1)

~~shezad~~

by

H

D

Macroeconomics

• Study of economy as a whole

Microeconomics

Study of economy at individual level

• derived from Greek word
MAKROS.

derived from Greek word
~~MAKROS~~

Elements of Macro

are :-

- General price level
- Aggregate supply
- Aggregate demand
- Unemployment

elements are twice are :-

- Individual price level
- Individual Demand
- Individual Supply

Q

Example :-

Production of
CAR INDUSTRY +
MOBILE INDUSTRY
+ OTHER =

Aggregate supply

Example :-

Production of
BMW + AUDI +
TATA + MARUTI

= Individual supply

My

Here we have

Individual market
market supply

Director
Tata's Institute, Dehradoon

It states, the
overall market
Supply is the
economy

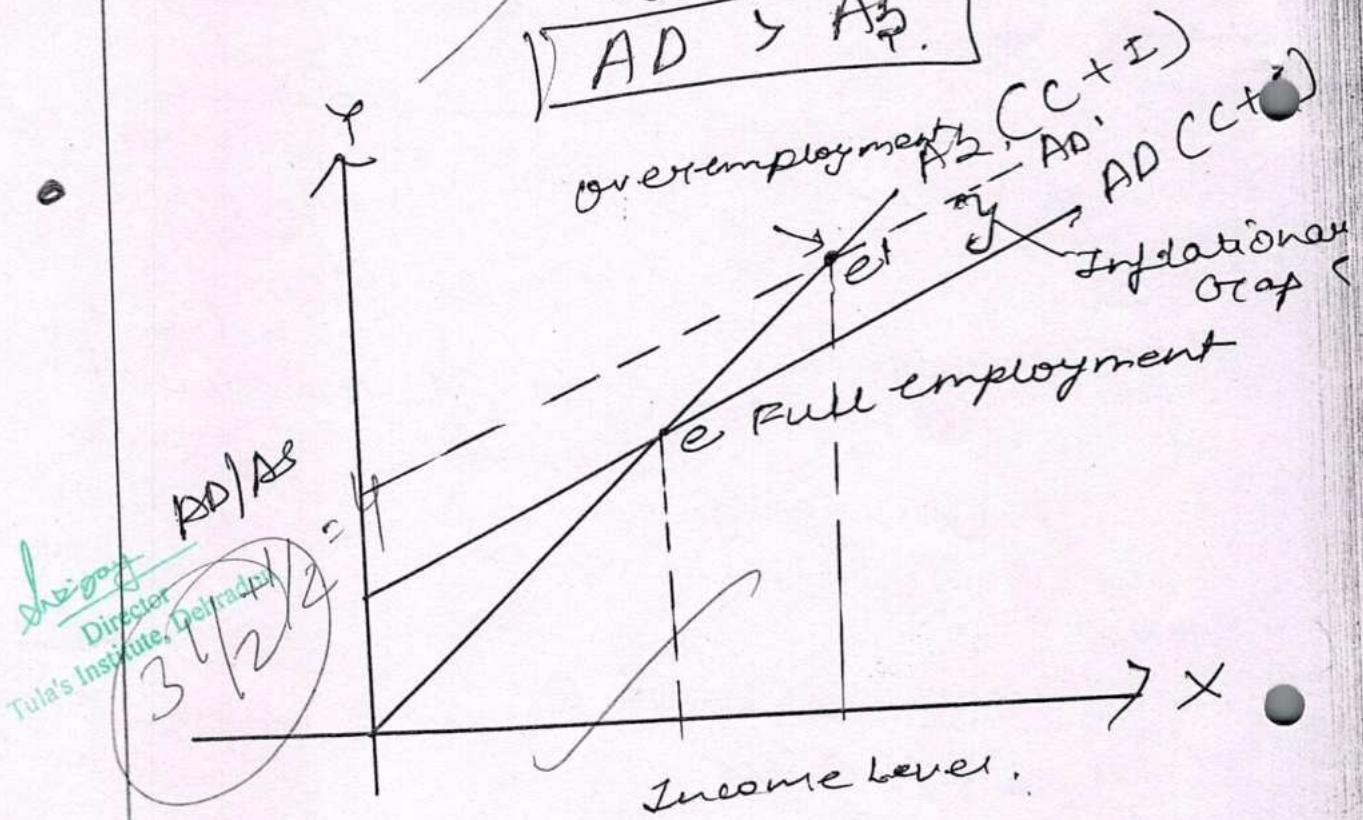

AB⁷

(ii)

- Excess demand: Excess demand is a situation when the demand for the goods & services increases & the supply of the goods & services decreases.

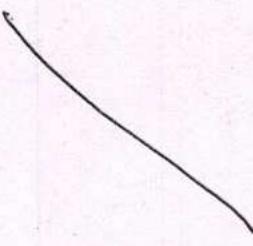

Aggregate Demand is greater than Aggregate Supply

$$\boxed{AD > AS}$$

In case of Excess Demand the Aggregate Demand will tend to shift from AD to AD' , it will lead to Inflationary Gap the AD' curve will cut AS curve upwards.

In case of Excess Demand, the Demand remains unfulfilled as the goods are out of stock. So, the producer will Increase the production and cost. He will hire more labour, which leads to employment & this will ultimately increase the GDP or Growth Rate.

Shivay
Director
Tula's Institute, Dehradun

by

5)

equilibrium :- equilibrium
is a condition where,

Aggregate Demand = Aggregate Supply

Savings = Investment

Marginal Revenue = Marginal Cost

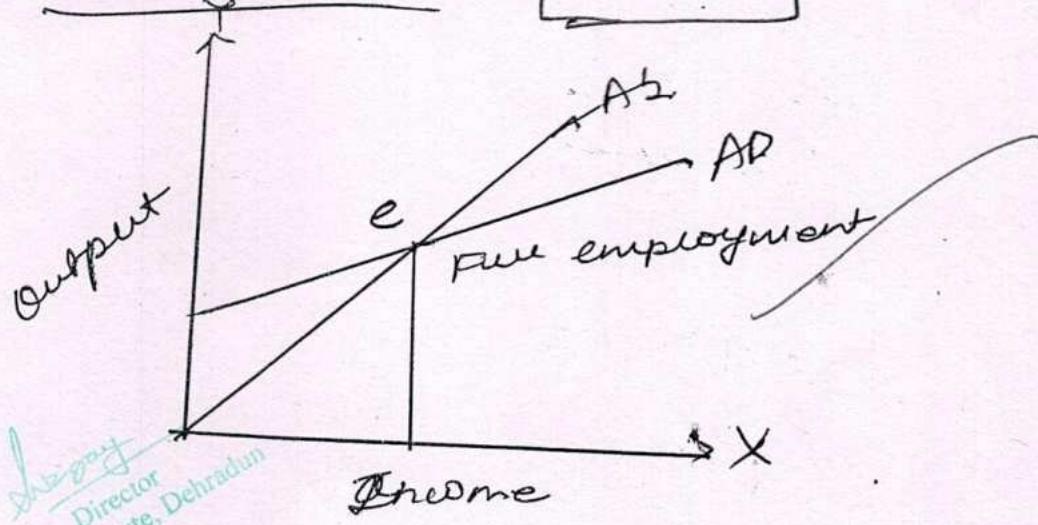

$$AD = C + S$$

$$AS = C + I$$

since, $AD = AS$

$\therefore S = I$

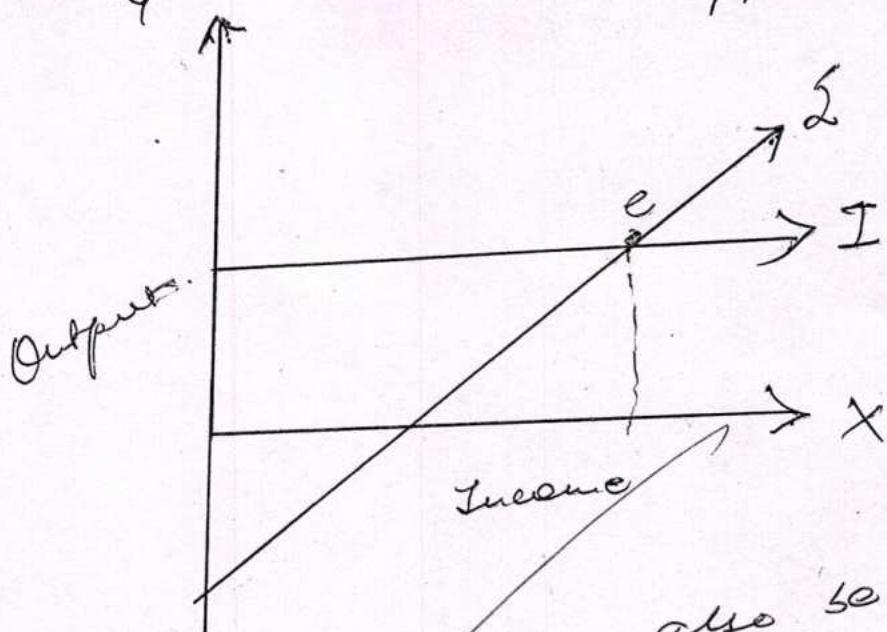

AD - AS Approach

When Aggregate Demand is equal to aggregate Supply this condition will lead to equilibrium.

Shrey
Director
IIT's Institute, Dehradun

S-I approach Saving & Investment approach.

the savings can also be negative. Assuming that the investments will remain same

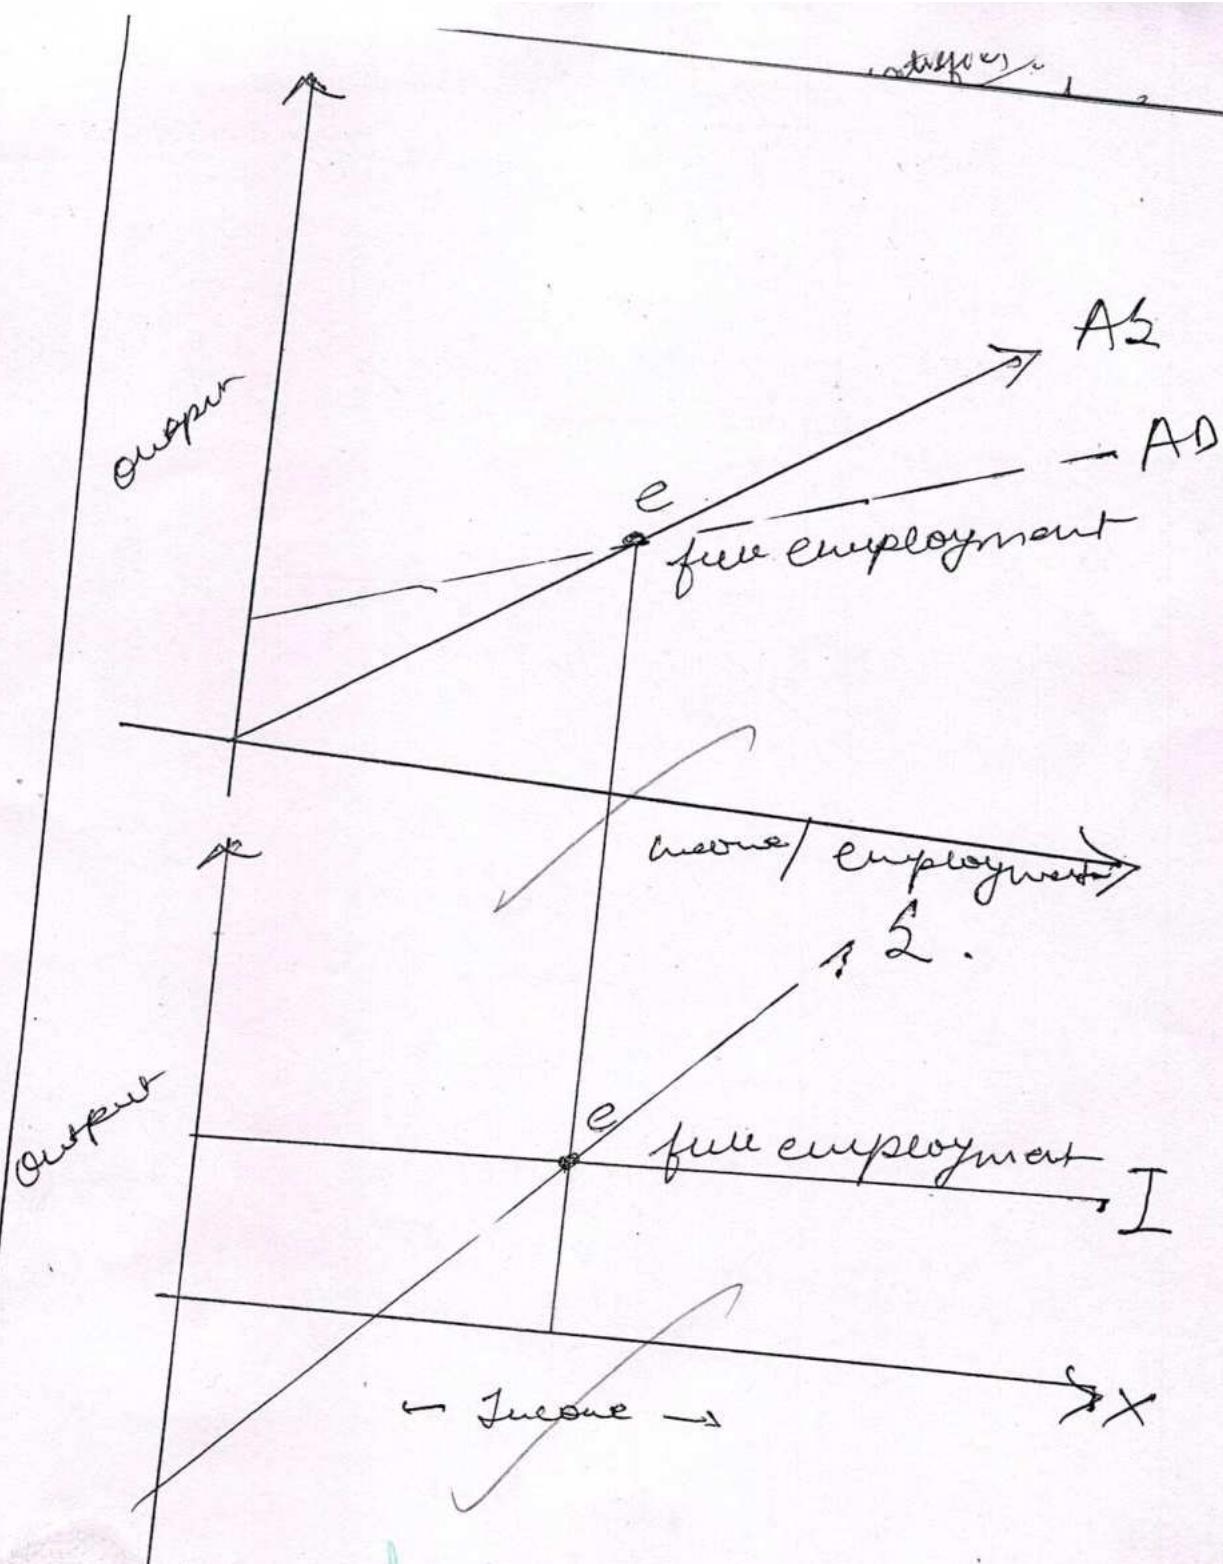

the savings will rise from negative & it will rise at an increasing rate.

$$AD = AS$$

$$C + S = C + I$$

$$\boxed{S = I}$$

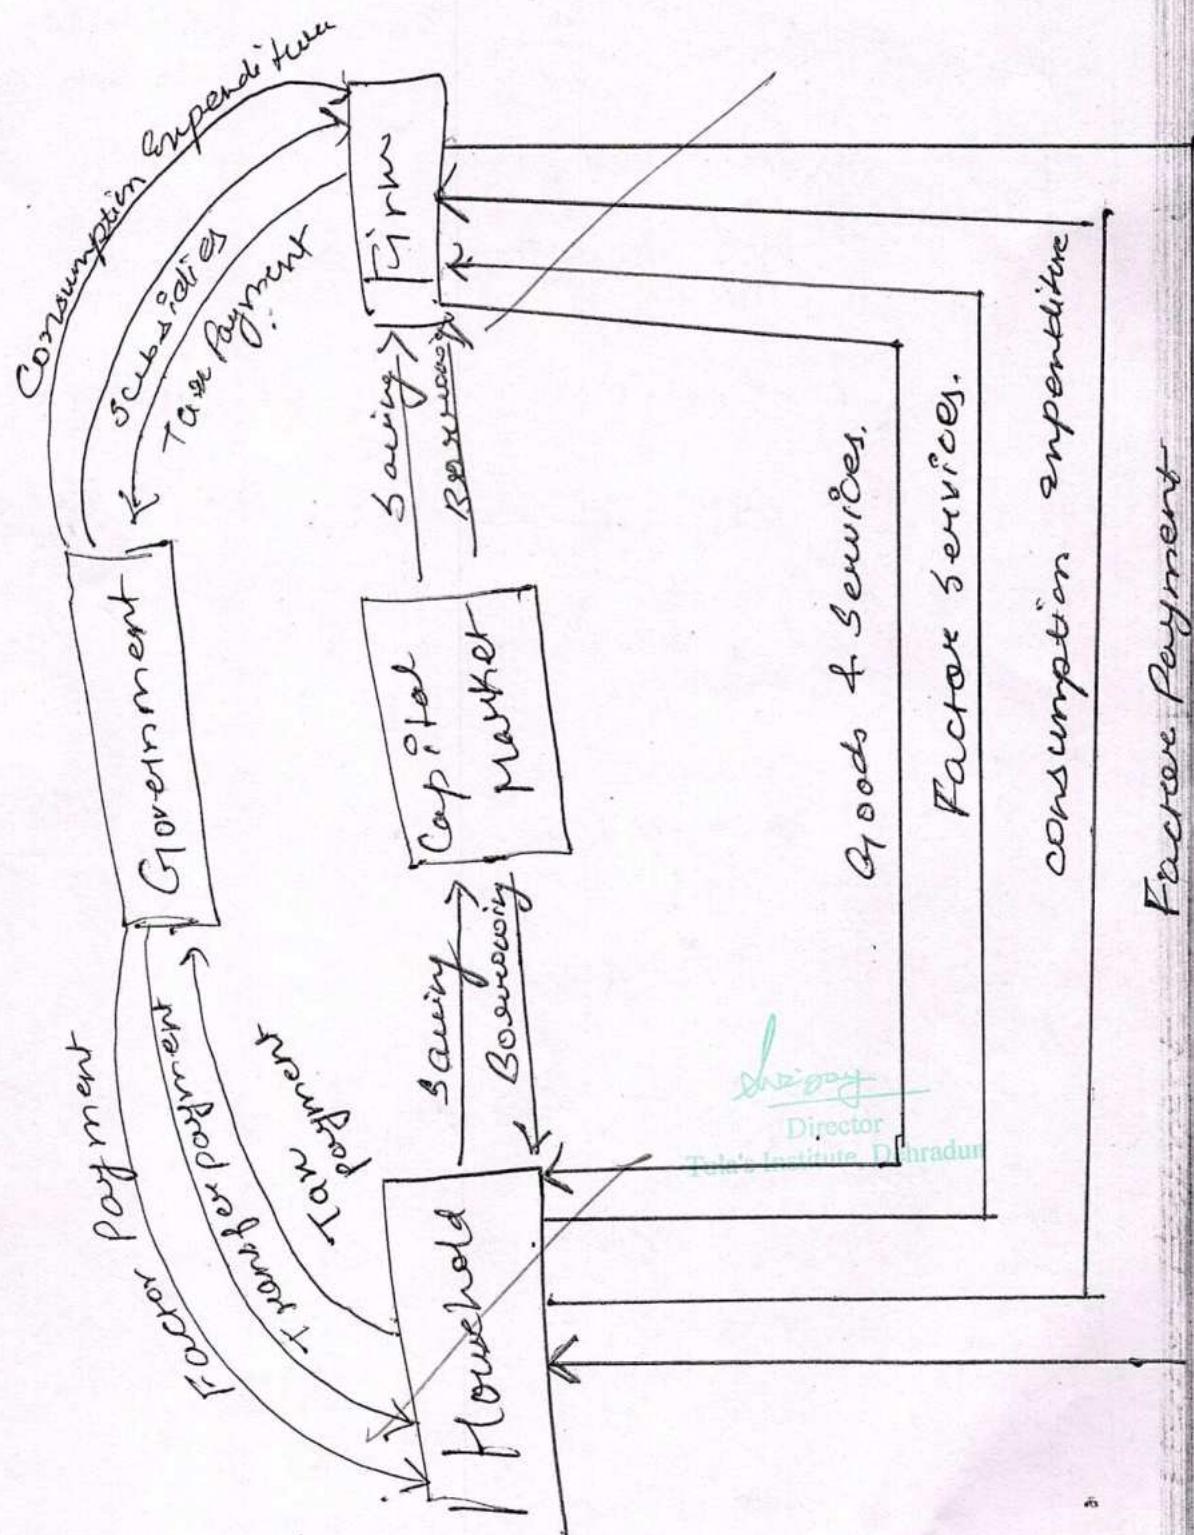

shriyay
Director
Tula's Institute, Dehradun

$AD = AS$ & $S - I$
 Approach together
 form an equilibrium
 situation

$\checkmark 3/2 + 1/2$

(c) Circular flow of Income :-
 cycle of generation of income
 from production, generation
 & distribution phase.

The household will provide factor services like land, labour, Capital, entrepreneur, In return the Firm will provide factor payment like [Rent, wages, interest & profit].

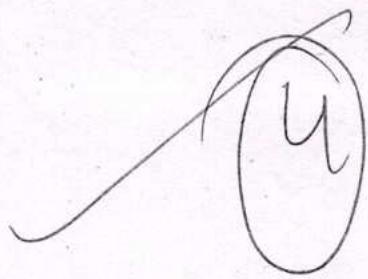

The Govt Firm will provide goods & services to households, the households will also pay on consumption of goods & services.

The Government will provide transfer payment like pension, scholarship etc. & they will also provide subsidies to the firms.

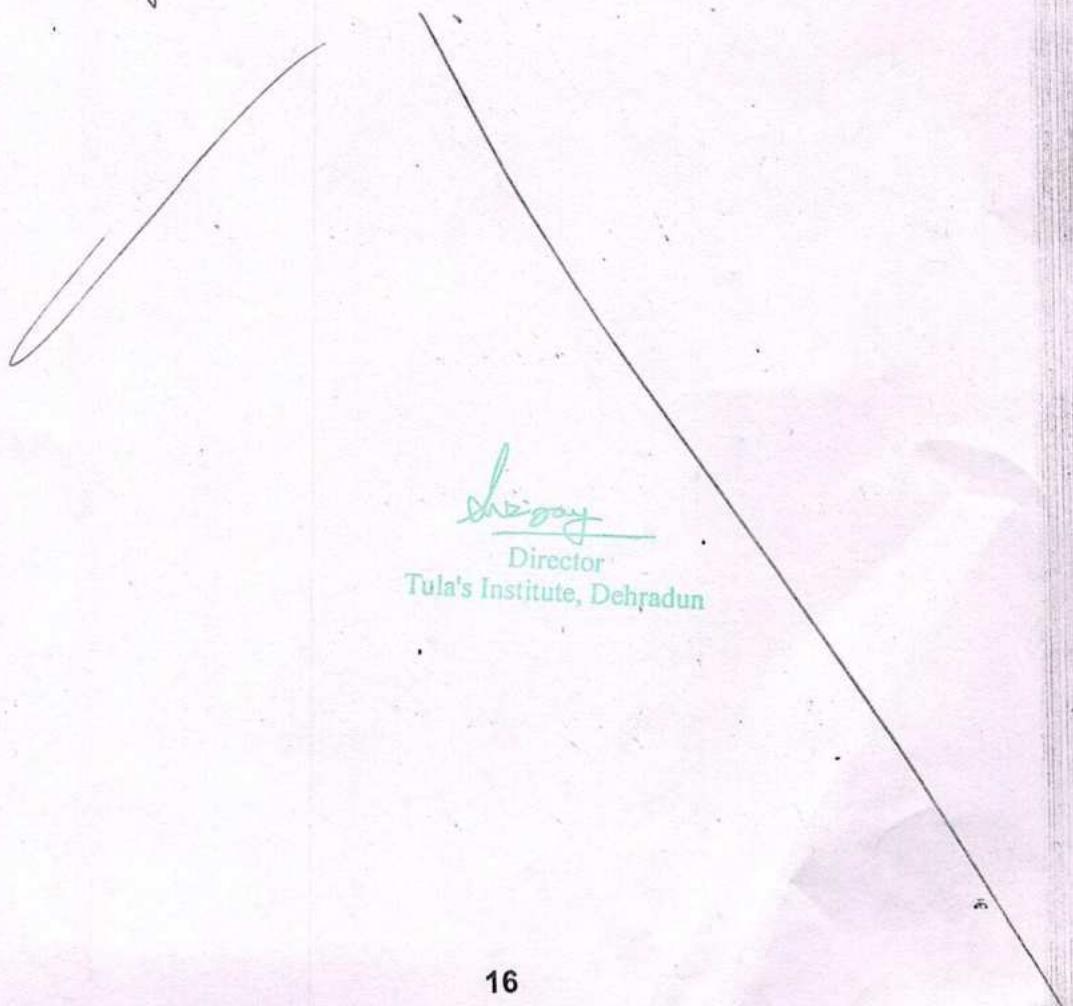

The Household & the Firm will pay taxes to the government.

The Government ~~will~~ ^{is doing} provide factor payment for the factor services & they will pay to the Firm Govt for consumption of goods & services.

hence the income ^{earned} & flows
throughout the market flows
goes back to the household if they

Q: 1

- (a) (iii)-(ii) Macroeconomics ✓ ①
- (b) (i) one ✓ ①
- (c) (iv) Both (ii) & (iii) ✓ ①
- (d) (a)(i) consumption expenditure ✓ 7
- (e) (i) change in consumption due to change in income ✓ ①
- (f) (ii) consumption expenditure plus saving. ✓ ① 816

Q: 2

(a) Aggregate Supply:

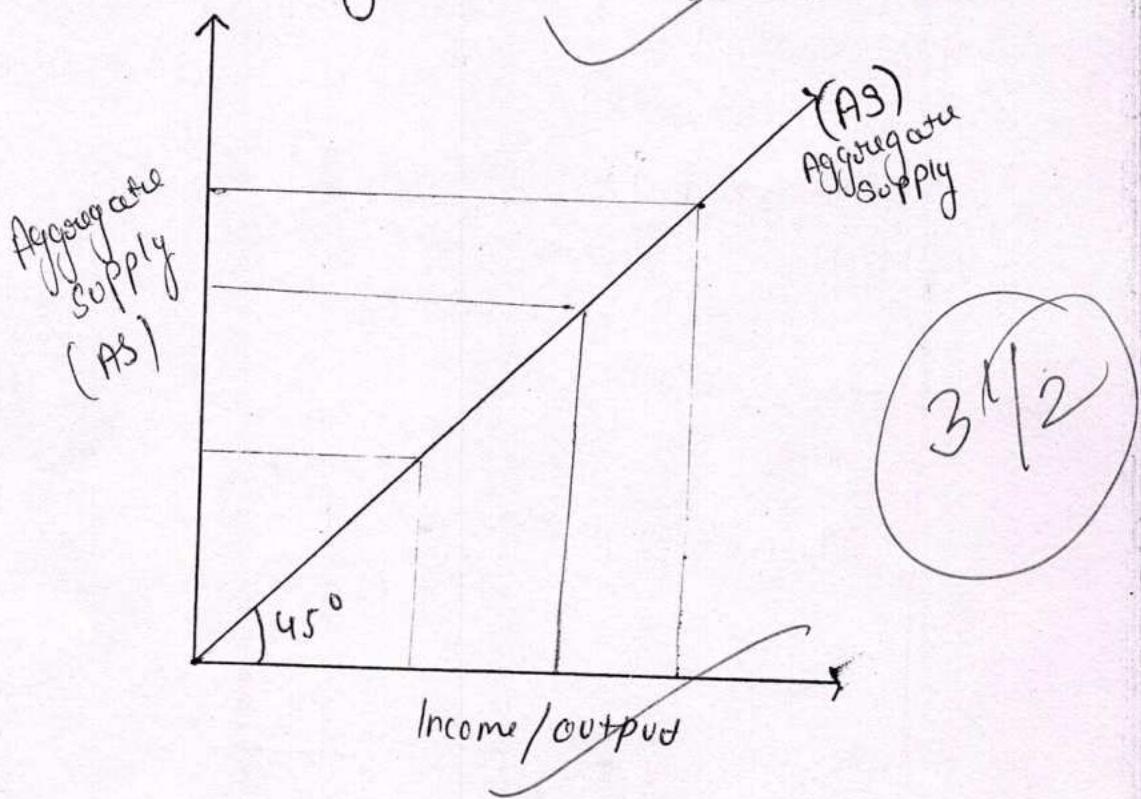

→ Aggregate supply refers to the total supply of goods and economy of a country in a fiscal year.

→ Aggregate ~~the day~~ ^{Director} supply is equal saving of the economy..

→ Aggregate supply (AS) are set by the supply unit of a economy

→ after study the ~~dominating~~ Aggregate demand of an economy how much consumer have willing and able to spend their disposable income for expenditure.

The graph of Aggregate Supply:

Ans(b) Repo rate: It is the tool of monetary policy of Reserve Bank of India for maintaining the balanced economy of the country.

Dinesh
Director
Tula's Institute, Dehradun

→ Repo rate are the rate at which Reserve Bank of India ~~sends~~ gives money at 100% to the all commercial banks of a coun.

→ When the condition of Inflation in the country Repo rate will increase as a result ROI charge more interest on the loan.

→ So, commercial banks refuse to take loan from RBI at a high rate of interest and if commercial banks are not able to take loans then they face shortage of money and banks will refuse the loan applications of the general public.

→ Hence money flow in the economy is low in the situation of inflation. Respective in deflation Repo rate will decrease.

Reverse Repo Rate

→ Reverse Repo rate at which commercial banks give money for loan to Reserve bank of India

RBI
Sector
Tula's Institute, Dehradun

→ This is also a monetary tool of RBI to solve the problem of inflation and deflation.

- In the situation of Inflation Reserve ratio are high to suck all the commercial banks money for resolve infl
- Respectively In deflation Reserve ratios are low.

Ans (C)

Quantitative tool of Monetary Poli

- Open Market Operation:
- In open Market operation Reserve bank of India purchase/sell bonds, commercial papers etc. on the behalf of the government.
- By ~~selling~~ ^{Purchasing} bonds and securities RBI suck off money from the market to resolve the condition of deflation and sale securities in the situation of inflation.

CRD

Shri Day
Director
Tula's Institute, Dehradun

- Cash Resource Ratio are split in Statutory Liquidity Ratio (SLR) and Legal Reserve Ratio (LRR)

- CRR are maintained by the commercial bank by ~~deposit~~ ^{some} reserves, their part of a deposit money (by public) to the RBI.
- LRR Some part of the public deposits are reserved commercial bank itself in the form of $\frac{1}{2}$ (RBI)

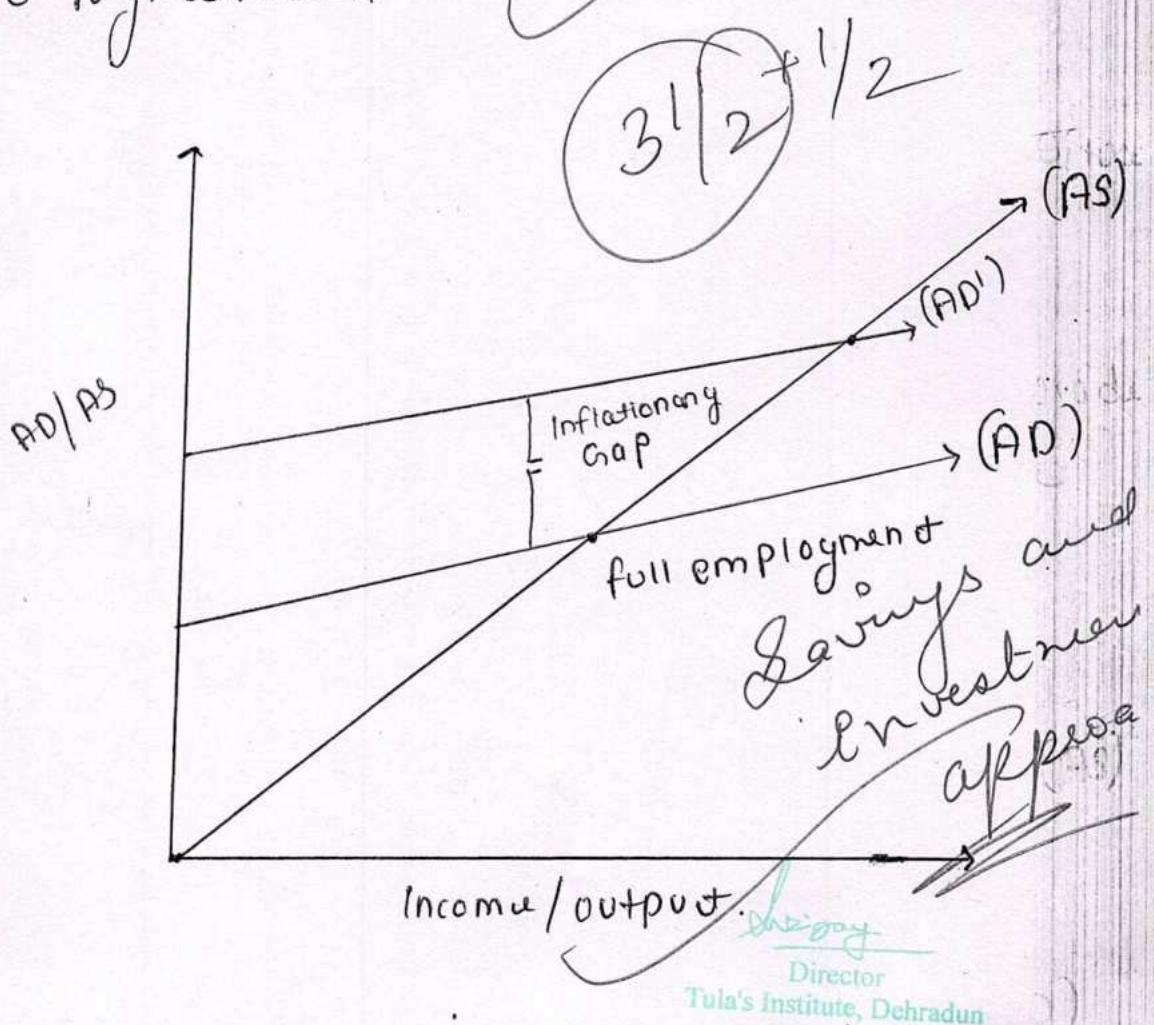

Q: 3

(a)

Excess Demand

- Excess demand is the situation of economy when the consumers demand more they spent their large part of their income on the consumption expenditure.
- Demand of the economy exceed the supply of economy we say, Aggregate Demand is greater than the Aggregate Supply $(AD > AS)$.
- Supply of goods and services by the suppliers of a economy are not sufficient to fulfill the demand of a consumers.

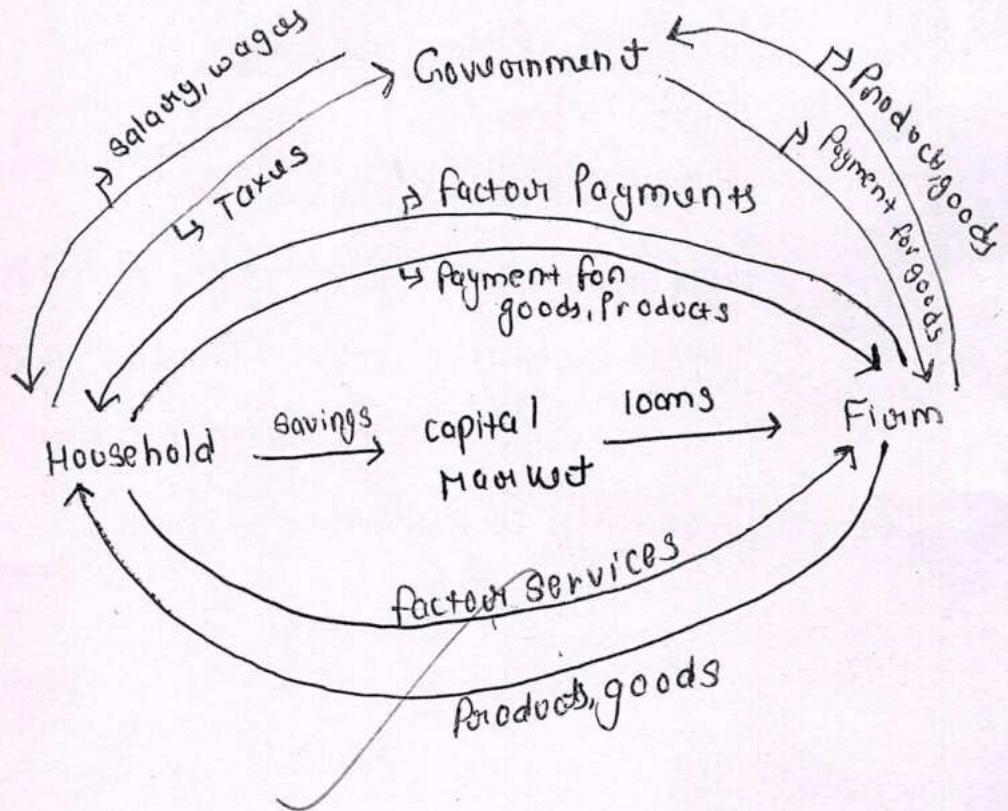

- So Demand curve are corresponding to full level of output in the economy.
- Due to the excess demand the situation inflation comes in the economy because output of the economy are constant but prices of products & service are continuously rise due to high demand.

- AD curve shifts upward to AD' because of excess demand and a inflationary gap arises between AD and AD'

An: (c)

Circular flow of Income in three sector model

Household → Provide factor services to the firms and firm gives factor payment for that.

Household give payment to the firm for goods, product which firm provide to household.

→ Capital Market

In which household invest their money in the form of savings and capital market give loan to firms from public

- Government:
- Government give wages, salaries + the household for their job in govt. Sectors
- Household gives taxes to the government for welfare of the economy.
- Government also give payment to the firm for purchase of products from firm. (4) Kindly discuss leakages and injections

A (b)

Induced Investment

- Induced Investment are dependent upon the Income and Saving of a economy.
- Induced Investment are not constant they are different and changed by the passing of time.
- Income of consumer and their Saving are highly affected

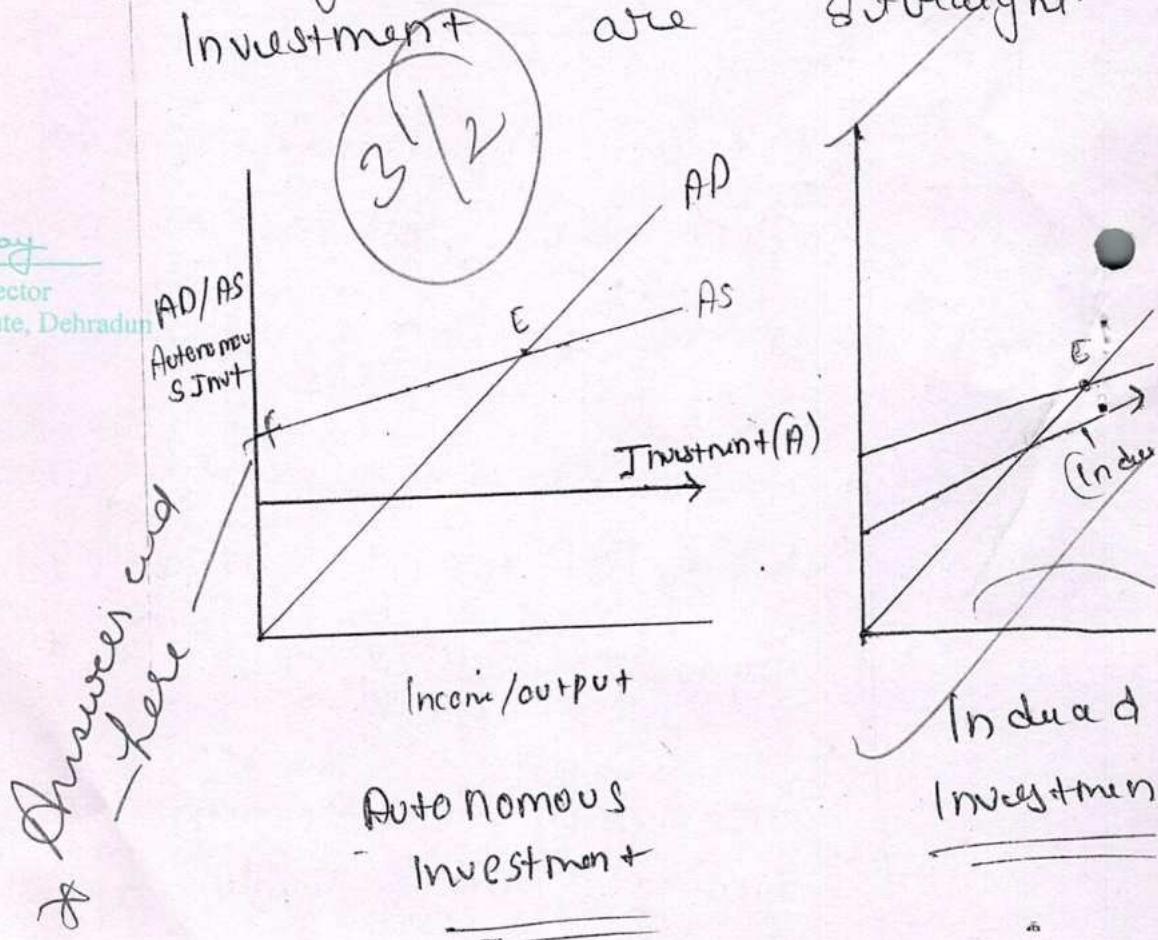

Shri Day
Director
Tula's Institute, Dehradun

Induced Investment

Autonomous Investment

- Autonomous Investments are constant they didn't change.
- Income of economy and expenditure, saving are not affect autonomous investment.
- Whether income of economy are rises or not the investment are remain same.
- The graph of autonomous investment are straight.

Q1

- a) NDP at market price ✓ 1
- b) (i) and (ii) ✓ 0
- c) Indirect tax minus subsidies ✓ 0
- d) NNPFc ✓ 0 1
- e) Depreciation ✓ 0
- f) Balance of payment & balance of trade ✓ 516

Q2

(a)

Economic growth

Economic growth never focuses on the increase in the GDP, National income, per capita income of the country.

Economic development

Economic development focuses on its reduce the poverty and increases the Standard of living of the people.

- Economic growth tries to increase the production of goods and services. It focuses on to increase the export of the country.
 - In economic growth the timeframe is short-term.
 - Economic growth tries to grow the country by increase in national income, per capita income.
- (u)
- Economic development tries to develop the economy which is a long process as it focuses on the skill development.
 - In economic development the timeframe is of long-term.
 - Economic development tries to grow the country by reducing the poverty by making proper medical facilities to everyone.

8) Double counting is a serious problem in the calculations of National Income. It usually happen when we calculate the national income by value added method. In Double Counting the goods are counted double times not intentionally but this results in the higher value of goods and it makes the product expensive and not everyone can afford it. It creates the problem at the time of calculating the national income as it counts everything twice and at the end it increases the cost.

3

National Income can be ^{also} calculated by Income and expenditure method without any problem of elusive counting.

(c) Birth rate

Birth rate refers to the rate of children born per second. If it is increasing day by day and the population is also increasing due to this. Now a days the birth rate is higher than the death rate in India. India's population is increasing a lot and is one of the most populated country after China.

Birth rate of India is higher and increasing daily per second, per hour, per day.

Literacy rate

A literate person is a person who can read and write any language and literacy rate refers to the rate of a population among them all who can read and write any language.

Now a days literacy rate has increased a lot as compared to 90's earlier family's don't used to send their female child for schooling but now the line has changed every child is getting a stage chance to educate himself. Even for people who cannot afford to pay fees of school for them government schools are made so that

*Shri Day
Director
Tula's Institute Dehradun*

Everyone can get a chance to educate himself and it also helps to maintain the literacy rate.

Q3

(b) Sustainable development

Sustainable development refers to focus to on the future needs of the future generation which without compromising the need of the current generation.

It means to use the resources which are available now to "the current generation" in such a way that it will also be used by the future generation and also no compromises will be done by current generation.

Shivay
Director
Tula's Institute, Dehradun

If focuses on the effective and efficient utilisation of resources.

Less wastage of resources will be good for everyone.

for example - Coal, petrol, diesel. These resources are less available now so this must be used in a limit now.

Or else its substitute must be find as soon as possible because these resources have become the part of everyone's life now and no one can imagine their life without these resources.

(4)

(c) Seasonal unemployment

Unemployment refers to a situation when a person is able to work, willing to work has the skills and knowledge to work but not getting work.

Seasonal unemployment is a type of unemployment in which a person work on season only like an farmer works on farm of wheat at rainy season only and after that season he remains unemployed for the entire rest of the year. There are many off-season crops and many farmers do that.

Seasonal unemployment can be of 6-6 month also like a person is working 6 month and for the next 6 month he/she will be setting idle.

(a) Indian economy refers to economy of the country which helps to develop & build up the level of the economy.

India's economy is not only depended on India but also depends upon the another country for the resources, goods and services etc.

Challenger faced by Indian economy are:-

shriyay

Director
Tula's Institute, Dehradun

- Indian economy has to face literacy rate, poverty rate and many more.
- It has to face inflation and deflation rate
- Indian economy has to face different crises in the economy.
- Import must be less than the export rate.

QUESTION - 2

ANSWER B

The Human Development Index is a statistical tool used to measure a country's overall achievement across its social and economic dimensions.

The Social and economic dimension of a country are based on various factors:

- 1) Education
- 2) Per capita income
- 3) Life expectancy.

1) Education:

The education is determine the year of School. for adult 25 year & expected year of schooling.

2) Per CAPITAL INCOME

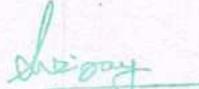

It is determine the income average income earn by the citizen of economic in the country.

3) The Gross National Income is determine the average of income of citizen in per thousand citizens.

3) life expectancy

It is determine that how the citizen is live. & the 20 to 85 year should be life expectancy. if anyone die in below 85 yrs that it is lower expectancy of a country.

→ The Human Development Index is created by United Nations Development Program.
